VICTORY

FOR TWO

Grade Case Partly Disposed Of.

Short Line is Denied an Injunction.

Nevertheless Its Attorney Says it Has Triumphed.

Salt Lake Road Will Claim the Narrow Passes and Clash May Follow.

SALT LAKE (Utah) July 22.—[Exclusive Dispatch.] The local attorneys for the San Pedro, Los Angeles and Salt Lake road and of the Oregon Short Line received word this afternoon from Carson, Nev., to the effect that Judge Hawley has delivered a decision or one observed the statement of the same fect that Judge Hawley has delivered a decision on one phase of the grade case. On the remaining points, the Judge reserves his judgment until the final trial of the case, which is expected to take place in September or October at the latest. Summing up the case this evening Attorney Whittemore of the San Pedro Company said:

"There may be a small victory in the decision for the Short Line, but there is a big one in it for us. The temporary injunction originally issued against the San Pedro and Utah and California and a large number of personal deniand.

miles of road, has been continued until the final hearing in September. That gives the Short Line a slight advantage, so far as this particular piece of road is concerned.

"But." continued Whitten the injunction saked for by the short Line people against us in the supplemental bill, restraining us from taking possession of or occupying the grade from Clover Junction to Pioche, a distance of thirty miles, and from constructing a grade down through the Meadow Valley wash to the Nevada-California line

Short Line people made in its race to beat us."

Attorney Williams of the Short Line takes a somewhat different view of the case. In an interview he said: "The Short Line wins in the dispute from Uvada to Cloverdale Junction. Judgment in the rest of the case is withheld until the trial of the whole case at the fall term of court."

It was stated on authority tonight that his company would not withdraw the men it now had at work in the narrow defiles of the Meadow Valley Guich, but that work would go on just the same as heretofore. In this event it is said the San Pedro road people will take immediate steps to secure either their ejection or withdrawal. The effect of the whole condition, therefore, is very complex, and may result in another clash between the forces of the two roads, as the loss of this right of way to the Short Line means millions of dollars to it.

lions of dollars to it.

'POINT OF DECISION.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SALT LAKE, July 22.—A special to the Tribune from Carson, New, says that Judge Hawley, in the Federal Court today, in rendering his decision in the Injunction case of the Utah, Nevada and California Railroad Company (Oregon Short Line) against the San Pedro, Los Augeles and Salt Leke Company said:

Pedro, Los Augeles and Salt Leke Company said:
"My conclusion upon the whole case is that the complainant has me le out a prima facie case entiting it to an injunction, pendente lite, as to that part of the way covered by the roadbed from Uvada to Clover Valley Junction and from thence to Pioche, but that it has not made out such a case as to entitle it to the additional injunction as prayed for in the supplemental bill."

In other words, the injunction in favor of the Short Line is sustained for the forty miles of the grade and road vor of the Short Line is sustained for the forty miles of the grade and road in Nevada, from the State line at Uvada to Clover Valley Junction, but not sustained as to the remainder of the route, pending a decision of the Land Office as to the proper maps filed.

handed down by the courts which have been considering the question of right of way along the miles of the road. The Sait Lake road and the Southern Pacific are the contenders, and each is trying to secure the right to use and grade certain difficult sections of mountain passes along the route.

"In the meantime, the road is being built, and could be completed from the Pacific Casst to Sait Lake within a space of two years if no other obstructions were encountered. The decisions may be made any day, and if they are favorable to our side of the question, the work will be pushed through within the period named. If, on the other hand, the decisions are adverse, it will delay matters, but no matter what the courts may say concerning the dispute between the Bouthern Pacific and our road, the line will be completed just as soon as the work can be done."

Perry S. Heath who is vice-president of one of the auxiliary companies connected with the railroad spoke optimistically about the prospects of the new road. He is a great believer in the project, and has given the subject the benefit of much thought.

Today several other eastern financiers are expected to join the party, and a trip to Sait Lake and later a trip over the new right-of-way of the

EXCITEMENT AT MONESSEN.

a serious nature will result inside of twenty-four hours. The National Tin Plate Works were started up in full this morning at the regular time. Shifts are working. Superintendent Donner has piaced a heavy guard around the mill, and if any effort is made to inmili, and it any the mean to me the military will be bloodshed. The organizers have been able to get a few men away, but it is said their places were quickly filled. To a reporter several of the men said that if the tin mili came out, they would have to leave this part of the country. They cannot work at any-thing else, and say they won't join the

LOOKING FOR TROUBLE.

BY THE NEW ASSOCIATED PRESS—A.M.]

PITTSBURGH, July 22.—At McKeesport, everything was black this morning. The Dewees-Wood Company did not make any attempt to go into operation, as was expected. It was reported that the company would bring in new men this morning. Hundreds of strikers were parading the street watching the railroads, and even watching the railroads, and even watching the river bank, because it was said the men would be brought in by boat up the Monongahela River. The leaders eventually learned that the rumor was without foundation, but it had hardly been disposed of when another report said that a gang of Alabama steel workers was comof Alabama steel workers was com-ing in on a Pittsburgh, Virginia and Charleston train. The stations of this road are on the opposite side of the Monongahela River from McKeesport, and detachments of men were at once sent to them. Passersby on the street were stopped and questioned, when occasion seemed to justify, but reason for any drastic measure

he had seen no one from Vandergrift, and knew nothing of their presence in Pittsburgh or McKeesport.

Whatever is being done by the Amalgamated Association people at Vandergrift is being kept so quiet at present that few of the general officials of the order are acquainted with the status of affairs. BY THE NEW ASSOCIATED PRESS-P.M.1

IBI THE NEW ASSOCIATED PRESS-P.M.)
PITTSBURGH, July 22.—From Monessen tonight came the following:
"There is suppressed excitement here
tonight, and it is likely that trouble of

union.

"An ironclad agreement with W. H.
Donner, now president of the Union
Steel Company, specially states that
the mill must be run non-union, otherthe mill must be run non-union, other wise the company cannot use his pat-LOOKING FOR TROUBLE.

perse. At daylight it was learned that the Alabama report was false, and the men returned to town, but guards were maintained at every point to prevent a surprise.

Throughout the excitement the strikers acted with decorum, and at no time in any part of the city was there any disorder. If the company should attempt to bring new men into the mill, it is not unlikely that the strikers would make resistance.

The Amalgamated Association people are greatly elated over the fact that they succeeded yesterday in organizing a lodge among the employes of the National Tube Works. The formation of this lodge may extend the conflict to that plant.

The situation this morning throughout Pittsburgh and Allegheny in the strike district was about the same as Saturday. No effort was made to run any of the plants.

It is said that the Amalgamated Association has arranged that in the event of any effort being made to start the Painton mill as non-union, an alarm would be sounded, and over two-thirds of the strikers would be on hand in a few minutes, prepared to stoutly resist any move by the management.

President Shaffer had recovered from

draw them into the strike?" the Amalgamated Association's president replied: "As our last conference proposition to the manufacturers practically limited the strike to the sheet, timplate and hoop companies for the time being, it was not our purpose to organize these men to involve the National Tube Company."

While still hoping for an early settlement of the strike, President Shaffer would not say that any steps had been taken in this direction, and so far as the general officers of the Amalga-

the general oncers of the Amaiga-mated Association were concerned they all declared that they had not been approached by any person or per-sons on this subject. Among the manufacturers there was

Among the manufacturers there was the same general silence preserved regarding the situation, and concerning prospective plans for opening the now ide mills of three companies.

A Wellsville, O., dispatch received at noon says: "Notwithstanding the rumors of last week, to the effect that the six mills of the Wellsville plant would be running in full today, such is not the sage. No outside men have would be running in full today, such is not the case. No outside men have been brought in, and only mills Nos. 1, 2 and 4 are in operation. At the present hour, though, it is rumored that enough of the strikers will resume work this afternoon to operate mills Nos. 5 and 6."

A Morrison, Pa., dispatch says: "The

A Morrison, Pa., dispatch says: "The A Morrison, Pa., dispatch says: "The tin mils are running night and day with a full complement of men. Organizers have about given up hope of inducing the men to join the union. The men say they are satisfied, and from the present outlook it will be impossible for the organizers to get the men into the union and close the mills."

FIREMEN'S STRIKE OFF.

USED GOVERNMENT PLATES.

PRAUDULENT CURRENCY MADE. INT THE NEW ASSOCIATED PRESS—A.M.]
WASHINGTON, July 22.—Chief Wilkle, of the Secret Service has received
a number of bank notes printed from
the original plates used by the State
Bank of New Brunswick, N. J., over
fifty years ago. The bank went out
of existance some time in the fiftles
and it was supposed that the steel
plates from which its notes were
printed were destroyed.
It seems, however, that these plates
have fallen into the hands of parties
who have printed from them large
quantities of notes which have been
put into circulation from New York
to Sun Francisco. A very large percentage of the notes so for discovered are
twos, although some ones and fives BY THE NEW ASSOCIATED PRESS-A.M.I

twos, although some ones and fives are being sent in. Inasmuch as the notes are not counterfeits of the United States note or obligation, the makers and passers cannot be prosecuted under the United States laws, but it

under the United States laws, but it is said they can be punished for fraud under the State laws.

It appears that the notes readily pass along the Canadian frontier as the takers think they are the notes of the Canadian province of New Brunswick, the words "New Jersey" being printed in small letters. The notes are printed on bond paper and are quite as good in every way as the originals. It is said that possibly \$2,000,000 of these notes are in circulation.

PORTO RICAN REFUND.

PORTO RICAN REFUND.

MATTER FOR THE COMPTROLLER.
BY THE NEW ASSOCIATED PRESS—A.M.1

WASHINGTON, July 22.—Atty.-Gen.
Knox today declined to render an opinion which was asked for by the Secretary of the Treasury on the question whether or not, under existing
laws, the Secretary is authorized to
refund the duties collected on goods
imported from Porte Rico between the
date of the ratification of the Spanish
treaty and the date that the Poraker
Act went into effect.

The Attorney-General says that inasmuch as the Comptroller of the
Treasury has given his decision on
the subject, it is a matter for him
(the Comptroller) alone, and he therefore cannot give a decision as requested.

It is authoritatively stated at the Treasury Department that the government will proceed immediately to refund these duties, acting upon the decision of the Comptroller of the Treasury, which was to the effect that the Treasury Department had authority under existing laws. The duties amount approximately to \$2,000,000.

WISSISSIPPI RIVER'S NEEDS.

URNS WANTS A MILLION. ibt the New Associated Press. A.M.)
WASHINGTON, July 22.—Capt. Edward Burns, in charge of river and
harbor work in the St. Louis district,
his angual result. In his annual report, recommends an appropriation for the next fiscal year of \$1,000,000 for the Mississippi River between the Ohio and Missouri rivers. Of this \$800,000 is to be for improvement and \$150,000 for maintenance.

ALIFORNIA CONTROLS THE FRUIT MARKET.

AND LEMONS IN GREAT DEMAND.

Unusually Unfavorable Weather of This Year the Cause of a Scarcity of Both Foreign and Domestic Prod-ucts That Have Sent Prices Higher.

IBY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 22.—[Exclusive Dispatch.] "Prices on foreign and domestic fruit were never higher than at the present time," said the men of the firm of P. Ruhlmann & Co., fruit jobbers at No. 33 Murray street, to a Tribune reporter. "The unusually unfavorable weather of this year has been the direct cause. The cold, rainy, backward spring retarded for some weeks the growth of the buds on the fruit trees, and when the buds had about begun to mature, they were met by a long spell of continued heat that has caused great havec to all fruit dealers and a great scarcity of fruit. Prices have IBY DIRECT WIRE TO THE TIMES.) great scarcity of fruit. Prices have

continually risen.
"To satisfy our trade we are dealing almost exclusively in California fruit. In fact, California oranges have supplanted the foreign-grown ones in trade. California fruit raisers control the market and as a result prices son. The excessive heat has produced an enormous demand for lemons, and raised the price of that fruit. Drought and heat have dried the stems of applies, so that all we can get now are ples, so that all we can get now are windfalls at about \$3 a box. The few blossoms carly in the year and the hot weather will result in a scanty supply of apples and high prices later."

A member of the firm of S. Lichstein

& Co. said today: "The weather has had a disastrous effect on the produce trade, and higher prices will be the rule for some time to come."

THE DOZEN.

Southwest and Middle States Sizzle.

Many People Succumb to Hot Wave.

Stockmen Cannot Get Water for Animals and Rush Them to Market.

KANSAS CITY (Mo.) July 22.—A veritable hot blast literally scorched the Southwest today, breaking all heat records in the history of the local Weather Bureau. Yesterday Kansas Cityans experienced the hottest weather ever known here, the government thermometer, reaching 104 dec. weather ever known here, the govern-ment thermometer reaching 104 deg. and remaining above the 100 mark for seven hours. Two dozen prostrations, nine fatal, were the result. Today at 3:30 o'clock the Weather Bureau ther-mometer, at the highest point in the city, showed 105 deg. with street ther-mometers in the business districts reaching as high as 128 deg.

The thermometer at 8 a.m. regis-tered 90; was 101 at noon, and at 3 p.m. 104. Hardly a breath of air stirred. 104. Hardly a breath of air stirred. The suffering was intense, especially among persons compelled to work outdoors and in the poor districts in the bottoms. Seven deaths from prostrations were reported during the day in Kansas City, Mo., and Kansas City, Kan., and over thirty people were evercome by the heat. This makes a total dead for the two days of sixteen. Most of the victims were elderly people. The highest previous temperature in the history of the Kansas City Weather Bureau was 103 in August, 1896, but it

the history of the Kansas City Weather Bureau was 103 in August, 1896, but it only remained near that point for one day. Today is the thirty-second in suc-cession on which the temperature has averaged above 90 deg., and the fif-teenth in that time in which the ther-mometer has gone over 100. At Law-rence, Kan., the State University re-

rence, Kan., the State University reported the heat record for Kansas again broken at 106, the highest in thirty-four years.

Farmers are still rushing their live stock to market because of the scarcity of water. Today the local receipts of cattle were the heaviest on record, amounting to 25,500 head. There was also a big advance in the price of grain, attributable to the heat. September corn rose almost 4 cents to 60%, and September wheat went up 4% cents to 68%. Single car lots of corn sold as high as 63 cents a bushel to go back to the country. Heavy showers fell this afternoon in Southwestern Missouri, in the vicinity of the Joplin sincumining district, and in Southeastern Kansas around Fort Scott. There is no probpect for a heavy fall, the only thing that will cause a permanent break in the drought.

DEATHS AT TOPEKA.

STATE SUFFERS VERY BADLY.

[BY THE NEW ASSOCIATED PRESS-P.M.]

TOPEKA (Kan.) July 22.—Three deaths and ten prostrations form the record of today's heat in Topeka. The thermometer has registered 106 deg. as its maximum. It has been 3 deg. higher during the heated season, but the humidity made today the most oppressive of the year. Most of the active work was stepped for the day.

From numerous places in Kansas come reports of most intense heat and much resulting damage. Slight showers fell this evening in the region about Pottawattomie county and some in Greenwood county. Lyon county had a good rain. The larger part of the State, however, is still parched by the terrible heat. Like breaths from a furnace the hot air swept across Kansas farms today, more completely blighting the seared corn and other suffering vegetation. In some parts of the State the temperature was as high as 109 deg., with considerable humidity reported. BY THE NEW ASSOCIATED PRESS-P.M.]

ported.

Heat of this intensity has been a regular thing for the past forty days, and the endurance of the State is rapidly approaching the limit. Losses are falling heavily upon farmess and stock men. Many had invested heavily in live stock, which, on account of the scarcity of feed, they are obliged to rush to market and take for it what it will bring. Estimates of the probable corn yield have fallen to a quarter of a crop. Many counties report a total loss of all the grains. From nearly every town in the State except Topeka come complaints of the scarcity of water.

CAPT. ALLEN PROSTRATED.

(BY THE NEW ASSOCIATED PRESS.—P.M.)

LEAVENWORTH (Kan.) July 22.—

At 4 p.m. today the mercury registered
108 deg. The highest previous record
of the present hot spell was on Sunday, when the thermometer registered
106. Capt. R. H. Allen, post a ljutant
at Fort Leavenworth, was prostrated.

Five other prostrations have been reported to the police department.

THE CRISIS IN CHINA D LAN TO PAY

PEKING MINISTERS HAVE PINALLY

China Must Raise Many Taels Annually-State Department Officials Figure Out Basis of Payment.

(BY THE NEW ASSOCIATED PRESS—P.M.)
WASHINGTON, July 22.—The State
Department received a dispatch today
from Commissioner Rockhill at Peking
announcing that a plan for the payment of the indemnity to the powers by
the Chinese government finally had
been adopted. The amortization of the
bonds to be issued will begin in 1902,
and the plan contemplates the milre
liquidation of both principal and linterest by 1940. It is expected that China
will raise 23,000,000 taels annually. This
sum is to be used to pay the interest
on the bonds, and to form a sinking
fund for the ultimate liquidation of the
principal.

fund for the ultimate liquidation of the principal.

Rockhill's dispatch was very brief, and did not go into any details. From the best knowledge of the general bosis upon which the ministers have been working, however, the State Department officials have a general idea of the conclusions which have been reached. The total amount of indemnity which China will have to pay will aggregate 450,000,000 taels, and bear 4 per cent. annual interest. It is estimated that of the 23,000,000 taels which China is to pay the first year, 18,000,000

mated that of the 23,000,000 taels which China is to pay the first year, 18,000,000 taels will be required for interest, and that 5,000,000 taels will be applied to the sinking fund.

Each year the interest will grow less, and the amount set aside for the sinking fund will increase so that by 1940, when the bonds are to be liquidated. sing fund will increase so that by 1940, when the bonds are to be liquidated, the interest will be almost normal. The sources of revenue for the payment of the indemnity, as understood here, are to be derived from the gabelle, or salt tax, the maritime customs, and the likin tax, a portion to be taken from each. The principle of the payment of the indemnity having been determined upon, what remains now is to devolve a plan for its execution. This is not regarded as a serious problem.

The bonds guaranteeing the indemnity are to be distributed among the various powers on the basis agreed upon heretofore. There will be no international guarantees, but it is said that the governments to whom the bonds are allotted will see to it that the purchasers will be and in their investments. State Department officers apprehend that there will be no tousle on the part of the various governments in disposing of these securities. on the part of the various govern in disposing of these securities.

PLASHES FROM THE WIRES.

A United States general committee to promote interest in and to pass on exhibits for the International Exposition of Modern Decorative Art, to be held in Turin next year under the presidency of the Duke of Aosta, has been formed at New York, and it extends an invitation to communicate with it to architects, artists and manufacturers who desire to exhibit their work.

The United States torpedo boat Adder was launched at the Crescent shippards at Elixabethport, N. J., yesterday. The launching was private.

Mrs. Hanna, the divorced wife of Daniel Hanna, who with her children succeeded in leaving New York, July 13 on the steamer Campania for London, in spite of her former husband's efforts to stop their departure, said yesterday in an interview that in view of her former husband's attitude she might remain permanently in England and prepare her boys for Eton and Oxford.

Owing to his official connection with the Leipziger Bank failure, a banker named Salo Rawiez committed suicide at Berlin yesterday by taking poison. Rawiez had indorsed acceptances of the Leipziger Bank amounting to 1,000,000 marks.

A special to the New York Tribune from London says that Cardinal

600,000 marks.

A special to the New York Tribune from London says that Cardinal Yaughan held a reception yesterday afternoon is the chapter hall of his new house in honor of Cardinal Gibbons. At the urgent request of Cardinal Yaughan the Roman Catholic archbishop of Baltimore has agreed to preach the inaugural sermon at the opening of the new Westminster Cathedral in June. 1902.

WEST VIRGINIA LYNCHING. ELKINS (W. Va.) July 22.—William Brooks, a negro was lynched tonight, being hanged from the limb of a tree in the city park. Brooks shot and fatally wounded Chief of Police Lilly, who sought to arrest him for creating a disturbance.

THE PHILIPPINES

CURTAILING OF EXPENSES.

Gens. Corbin and Chaffee Form Plans.

Sixty Per Cent. of Cost to Be Lopped Off.

Outline of Economical Programme as Mapped Out by Officers.

BY THE NEW ASSOCIATED PRESS-P.M. MANILA, July 22.—[By Manila Ca-ble.] The conference between Adjt. Gen. Corbin and Gen. Chaffee recently held here will probably result in radi-cal economical and administrative recal economical and administrative re-forms in the army of occupation. It is estimated that the total cost of main-

ippines can be reduced by 60 per cent. in the course of one year.

The principal change will be the reduction of the present force to between 20,000 and 30,000. The abolishment of the present army districts is contemplated, and three brigades with permannent headquarters at Manija. Daguaan nent headquarters at Manija. Daguaan nent headquarters at Manija. and hollo or Cebu will be instituted in their stead. The troops will be concentrated at three points selected, abandoning all minor posts. The change will result in an enormous saving of transportation of supplies and the paying of detail barracks for the officers.

ing of transportation of supplies and the paying of detail barracks for the officers.

Adjt.-Gen. Corbin and Gen. Chaffee have decided upon the construction of barracks at the pumping station, about six miles from Manila, and the source of the city's water supply to accommodate the three regiments of infantry, one of cavalry and eight batteries of striffery, as well as a general commissary and quartermaster's storehouse to cost \$100,000. The erection of this latter building will reduce expenses by \$20,000 a month, being rentals paid for the commissary and quartermaster storehouses in Manila alone. An electric railway connecting the docks on the Pasig River and the new storehouse will be constructed.

Gens. Corbin and Chaffee have also decided upon one single general military hospital to replace the seven military hospitals in Manila and vicinity one of the latter buildings will be converted into a hospital. The reduction of the great fleet of government launches and small government steamers has already begun. Permanent barracks have been erected at Dagupan to accommodate all the troops necessary to Northern Luzon. Government vessels will carry supplies for the southern brigade from the United States direct to Iloilo without touching at Manila.

The insular constabulary is now being reorganized. It will be maintained by the insuer government and is expected to be amply able to preserve peace and enforce the law. This constabulary will, as a general rule, be armed with rifles, but its members have been given 500 shotgans and 2000 ponies relinquished by the army, has alvertiment.

has been taken over by the civil government.

Much wheeled transportation, formerly belonging to the army, has already been disposed of. The concentration of troops at Manila, Dagupan, liolio or Cebu will begin at the close of the rainy season next November. As a further measure of economy arrangements are being perfected to stop the buying by various civilians and ivili government employés of commissary stores heretofore sold them at army rates. Adjt-Gen. Corbin will sall for the Southern Archipelago on the transport Lawton. From there he will go direct to China, returning to the United States via Vancouver.

ANNIVERSARIES IN SAMOA

NATIVES JOIN AMERICANS. [BY THE NEW ASSOCIATED PRESS-P.M.] APIA (Samoa) June 19.- [A. P. Cor. respondence. Wired from San Fran-cisco, July 22.] "Decoration day" was duly observed at the United States nacisco, July 22.] Decoration day was duly observed at the United States naval station of Tutulia. The ceremony was instigated by Acting Governor Lieutenant-Commander Dorn and the officers of the U.S.S. Abarenda. The Samoans were informed the day previous that it was a custom of all Americans to show honor to the memory of the nation's dead on the 30th of May each year. A full-hearted response was given by the natives to the intimations. At early dawn streams of maidens were pouring into the chief settlement of Fagatogo and Pago Pago, laden with floral tributes, and they were busily employed for home hours weaving the flowers and evergreens into wreaths of all manner of designs. These were afterward placed on graves of American sallors.

June 5 the celebration of the anniversary of the hoisting of the United States government for the protection given them.

The natives are surprised that the United States administration has rather neglected the outlying islands in the distribution of flags for the celebration of the Fourth of July. Every Samoan begs for the symbol of the United States' authority. Frequent applications are made to the commandant for flags, but the supply is insufficient. Every native official who owns a boat wants one to holst on his craft when going from place to place.

The natives of Tutulla and Manua have completed the delivery of copra in payment of the native taxes to support native officials, and the produce is now being shipped to San Francisco.

Dr. Schnee. the imperial District Judge for German Samoa, will leave for German yia the United States. val station of Tutuila. The cerem

DORTO RICAN CHILDREN LOVE SCHOOL ROOM

RELUCTANT TO QUIT STUDYIN WHEN TERMS CLOSE.

Normal School Will Be Held for the Preparation of More Teachers-Big Scarcity of Houses in Which to Train

that a summer normal-school session is of ten weeks will be held in this city, beginning July 16.

About five hundred teachers and prospective teachers have signified their intention to attend this summer school. Its function is not to teach but to train others to teach and a faculty has been selected with great care to carry out this idea. The fact that such a number should wish to attend these courses of instruction is a most remarkable and practical Gemonstration of the utility and value of the system of education that is being established in this island.

ducation that is being established in this island.

It also indicates that the people at large appreciate the value of the new educational system which is being carried out under the direction of Commissioner Brumbach. By the time for the autumn term to open, more than 30 new school houses will have been completed. But even then there will not be accommodations for half the children of school age. Extra buildings in all towns will have to be rented, as it is quite probable that the school attendance next year will be doubled.

FOUR BURNED TO DEATH.

Pittsburgh Mother Used Oil to Make the Fire Burn, Which Caused a Fatal Explosion.

Explosion.

[BY THE NEW ASSOCIATED PRESS-A.M.]

PITTSBURGH (Pa.) July 22.—A fire
in a Penn-avenue tenament building
this morning caused the death of a
mother and three children. The dead MRS. SOPHIA RATZA, aged 30,

years, mother of the children. VIOLA RATZA, aged 8 years, eld-

WABOCK RATZA, a boy, aged 2 years.
The injured:
FRANCIS RATZA, husband and father of the family, was badly burned. It is said he will recover.
From what can be learned, Mrs. Ratza, who was preparink breakfast, poured some oil on the fire, and the blaze from the stove ignited the oil in the can, causing an explosion, which was heard throughout the house. The burning oil was scattered over the room, setting fire to the clothes of Mrs. Ratza and the children. The house in which the fire occurred was a two-and-one-half-story frame. It was owned by Mrs. M. Barbara Zankle, who conducted a bake shop on the first foor. The loss is placed at \$1500, partially insured.

DR. M. E. SPINKS,

OIL-CASING THIEF CAPTURED AT LAST.

A CLEVER PLAN.

Rosedale avenue and Sixth street. This to consisted of 379 feet of tubing as was worth \$189. The officers learned where he had had this moved and followed it when it was again moved. Finally it was sold to the California Wrecking Company, No. 739 San Fernando street. When Hail, who was known to the wrecking company by thomane of Clark called there yesterdate collect for the tubing, he was promptly arrested. He almost faints when told what the officers wanted his for and then confessed his guilt. Howard Hall Caught While Trying to Collect for Stolen Pipe He Had Sold, and Confesses That He Did the Busi-

After several weeks of hard work the detectives have captured the thief who for nearly two months has been stealing oil-well casing or tubing by the wholesale from various parts of the local fields. The prisoner is Howard the local fields. The prisoner is Howard Hall, alias Charles Clark, alias F. Glover. He has been a laborer in the oil fields for several years, and al-though he is only 22 years of age, his plan was as shrewd as any old thef could have concocted. He has con-fessed his guilt and aithough the offi-cers have not been able to recover all the pipe which he has stolen, they the pipe which he has stolen, they have secured evidence which they think

IBY THE NEW ASSOCIATED PRESS—A M.
LONDON, July 22.—(By Atlantic Cable.) The Duchess of Mariborough Mrs. George Cornwallis West, Mrs. Ronalds and other American ladies of the hospital ship Maine, committee, ha an audience with King Edward a Malborough House this afternoon. have secured evidence which they think will certainly cohvict him.

The first theft of oil-well casing was reported to the detectives late in May, but the officers were able to get no trace of the plunder. The reason it so mysteriously disappeared has been explained since, when it became known what a cleaver game Hail was working His method cost oil-well owners more than a thousand feet of pipe before he was caught.

His method cost oil-well owners more than a thousand feet of pipe before the was caught.

He would first locate a pile of pipe which he desired to steal. Then he would telephone to some prominent truck company, and giving the name of some well-known oil company, would order the pipe or casing removed to some place remote from where he found it. The truck company would not suspect that the order came from any other than the person Hall represented himself to be, and the tubing would be moved as ordered. Hall would not let it remain long, but calling up another truck company he would order it moved to another point. Later he would have it sent to some place where he could sell it. To the purchasers he represented himself to be a representative of a well-known oil concern. Under ordinary circumstances it would be easy to follow such orders were it not for the fact that the truck companies are called upon every day to move oil-well casing from place to place. It was impossible to ascertain what operations were legitimate and which the result of Hall's peculations.

Admiral Says He Read Maclay Proofs.

He Would Welcome Congressional Action.

Thinks the Writer of Bob Evans's Story Got Badly Mixed.

(BY DIRECT WIRE TO THE TIMES.) BOSTON (Mass.) July 22.—[Exclu-ve Dispatch.] Admiral William T. Bampson, now commanding the Boston
navy yard, has finally broken silence
regarding the Schley-Sampson controversy. He is moved to do so by the
new controversy over Edgar Stanton
Maclay's book in the Santiago naval
campaign. The admiral was asked today if he had ever read and criticised
any of the proofs of Maclay's naval
history, and in reply he said he thought
he had.
"Just the later of the control of the proofs o

Just what I did do with the proofs Just what I did do with the proofs ich were sent me by Mr. Maclay," said, "I do not remember, but if memory is correct I did read them, aids, Lieut. Bennett, also says that ead the proofs, but declined to critis them because the language was immoderate. I don't remember at the proofs said about the battle, but Schley or about any one else, presume they contained the same fements as are embodied in the histy."

response to an inquiry as to ther or not he had ever given Marfacts about this campaign, and claily about the battle of Sanso, Admiral Sampson replied most hatically that he never had. "I rold him anything about the Sanso fight or any other, and neither my aide, Lieut. Bennett," said the Iral. "I would welcome an ingation of this whole matter by tress or by the Navy Department, I see no hope of it being taken up. rdly believe Congress will do anyty about it at this next session.

IS UP TO SAMPSON.

(BY DIRECT WISE TO THE TIMES.)

WASHINGTON. July 22.—(Exclusive Dispatch.) It is argued in naval circles tonight that Admiral Evans's inserview makes it incumbent on Admiral Sampson to ask Secretary Long or a court of inquiry. As Sampson was commander in Chief of the fieet it as his duty to see that every captain under his command was made acuainted with the McCaUa code.

According to Admiral Evans's interiew this information was not furshed to Capt. Cook of the Brooklyn to Admiral Schley, and the responbility for this oversight, it is stated, ust rest on Admiral Sampson. It ould seem, therefore, that he will rite a letter to Secretary Long in the control of the secretary Long in the secretary Long

would seem, therefore, that he will write a letter to Secretary Long, inwiting his official attention to the Admiral Evans interview, and demanding that, in the event that Admiral
Evans does not repudiate the published statement, a court of inquiry
be convened to locate the responsibility
for the failure to acquaint Admiral

clusive Dispatch.] Col. George A. Pearre, who represents in Congress the district from which Schley entered the Naval Academy, intends to take the initiative in the Maryland dele-gation by moving an official investi-gation of the Schley controversy to a definite issue. In an interview today he said that he would certainly con-tribute his share of efforts to have the facts in the Schley affair fairly ascertained and the results of an impartial investigation summarily

TEAMSTERS' STRIKE HUBTING MANY PEOPLE.

SAN FRANCISCO BUSINESS MEN GENERALLY HANDICAPPED.

Fruit Growers, Shippers and Canners Will Lose Very Heavily if the Trouble Does not End Soon-Other Branches of Labor May Be Affected.

SAN FRANCISCO, July 22.—[Exciusive Dispatch.] Wholesale business is paralyzed today, and hundreds of tons of fruit are rotting at the wharves bement on the part of trainmen on the south-bound Mexican Central this morning at 11:30 o'clock, a serious accident occurred a few miles this side of the station of Moctesuma, and as a result eighteen passengers bound for the City of Mexico and southern points in the republic were badly injured, but at a late hour this evening only one death has-resulted. cause 1000 teamsters went on a strike this morning. These teamsters all work for large draying companies, which have refused to recognize the teamsters' union, and they declare that by to-morrow more men will join their ranks. Wholesale merchants who do their own draying are not hurt, but a majority of the merchants let out this work to draymen, and these are helpless to

draymen, and these are helpless to move their goods.

The worst loss falls on the shippers of fruit, commission merchants and canners. Fine fruit and vegetables are piled in great heaps on the wharves, but cannot be marketed. Peddlers are taking a small part of it for what they will give, but the great portion will be lost. Of three large city canneries, which employ several thousand operatives, only one is running today. It has a spur track to its place, and can move the fruit, but the others are left without supplies. The loss on fruit will run into thousands of dollars daily. Prices of fruit and vegetables fell off materially. The strike is not on a question of wages or hours. It is merely on the recognition of the union by the Draymen's Association.

SAN FRANCISCO, July 22.—Secretary Renner of the Draymen's Asso

"The draymen have employed about 200 men. We are willing to employ union men, but we require every applicant for work to enter an agreement to give willing and absolute obedience to the orders of his employers, irrespective of his union."

give them all the assistance in its power to aid them is winning the fight."

Secretary McLaughlin of the teamster's union said tonight: "The situation will not be well defined for several days. Then, if necessary, we will call out all the unions which are affiliated with us. I think that the fight will be a short one. The tie-up will be complete, and the pressure will be too great for it to last long. We can stand out for several months on what resources we already have, and with a complete tie-up something will happen by that time. There will probably be a meeting of the union Thursday night, and we will probably take some definite action then. We have eight unions of teamsters in this city, and with a general cail out we can pretty well deaden things."

Fourth Vice-president Wilson of the International Association of Machinists, in reviewing the situation of the machinists' strike today, said:

"The situation here looks encouraging, Money is beginning to come regularly from the East. It won't be long before we shall be dictating terms of settlement. The shops are getting short on stock, and then we will have them where the shoe pinches. We, on the other hand, are getting better and better."

SHARON (Pa.) July 22.—The American Steel Casting Company is badly

crippled today by a strike of chippers,
molders, apprentices and crane men,
caused by the importation of thirtyfive machinists to take the places of the
men who struck last week. The new
men went to work this morning, accompanied by deputies. About 1500

to the orders of his employers, irrespective of his union.

"The men may have unions, but those unions are not to run our business for us, nor to dictate with whom we shall do business. This is the point and on that line the Draymen's Association, with the backing of the Employers' Association, is prepared to carry the contest to a finish."

The teemsters claim that the Employers' Association has inaugurated a movement to break up every union in the city. The officers of the brother-hood are confident that they will call out other organizations. There are ectively affiliated with the teamsters about 12,000 men.

At a meeting of the Executive Committee of the Merchants' League this afternoon, it was announced that the association fully indorsed the position of the employing draymen, and would give them all the assistance in its power to aid them in winning the fight."

Becretary McLaughlin of the teamster's union said tonight: "The situs.

ST. LOUIS TERMINAL PUSS.

STRIKERS WRITING LETTERS.

BY THE NEW ASSOCIATED PRESS—A.M.,
ST. LOUIS, July 22.—It was announced today that 180 men, including conductors, brakemen and switchmen, are out in the strike that was begun Saturday by employes of the St. Louis Terminal Association. Both sides express satisfaction in the progress made. The Terminal Association management declares that some of the men have returned to work, and that all trains are running on time.

Letters have been sent to Gov. Dockery, Mayor Wells and President Hawes of the Board of Police Commissioners, explaining the position of the strikers. The letters are signed by Acting Grand Master Lee of the Brotherhood of Railway Trainmen. Lee today declared that within the next twenty-four hours grand masters of several other railroad men's orders would be in the city, but he would not state for what purpose they were coming. STRIKERS WRITING LETTERS.

DUSSIAN COPPER MINES.

CLARK'S SON TO INSPECT THEM.

(BY THE NEW ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, July 22.—(By
Atlantic Cable.) The Novosti reports that the capital of the copper company in which, according to the Novoe Vremya., United States Senator W. A. Clark has joined with Kieff capitalists, will be 20,000,000 roubles, of which Kieff will supply 3,000,000 roubles and Moscow 4,500,000.

ARIZONA VALUATIONS SHOVED UP.

Mines of Cochise County Assessed Higher.

Some of the Properties Raised Millions.

Phelps-Dodge Railroads the El Paso and Southwestern System Now.

TOMBSTONE (Ariz.) July 20.—[Regular Correspondence.] The Supervisors of Cochise county, acting as a Board of Equalization, are trying to raise the property valuations of the county from about \$3,000,000 to about \$9,000,000. This about \$3,000,000 to about \$9,000,000. This they propose to do by bringing the assessments of the mines up to somewhere near the rated valuation of the holdings. Heretofore the mines have been lightly taxed on nothing more than a part of their improvements, with something added on patented claims. Every producing mine in the county has been raised. On the Copper Queen, at Bisbee, the principal copper producer of Arizona, the raise is \$3,000,000 above its former assessment of less than half a million. A much milder raise was beaten by the company last raise was beaten by the company last

less than half a million. A much milder raise was beaten by the company last year in the courts, on account of the insufficiency of notice given. The Commonwealth mine, at Pearce, reputed the best gold producer of the Southwest, has been raised \$1,000,000. In a hearing before the board, Super-intendent Brockman admitted that the mine had produced millions, but stated that at present the ore worked carries only \$7.50 a ton in gold, that the cost of mining and milling is \$5.50, and that the mill capacity is \$15 tons a day, thus giving a margin of only \$350 a day. The Calumet and Arizona mine at Bisbee, a property that sold lately for \$550,000 and that has just sold \$1,000,000 in stock at a premium, has been raised \$1,000,000. The Lowell and Arizona mine, in the same camp, has been raised \$500,000 and other companies are on the list. It has been reported that the Supervisors of Yavapai county will adopt the same course. The entire assessment roll of the Territory at the present time is only \$358.

RAILWAY SYSTEM NAMED. BISBEE (Ariz.) July 22.—[Regular corespondence.] The El Paso and couthwestern Railroad is the name just of railways in the Southwest. This corporation takes over the older Arisona and Southeastern Railway, from Benson to Bisbee, the branch from Naco Junction to Naco, on the border, the Nacosari branch, from Don Luis to Douglass on the border, and the new main line from El Paso to Bisbee, with its spurs to Lordsburg and to Deming. The line south of Douglass has been incorporated in Mexico as the Nacosari Railway. There is a probability of another spur from the main line that will take in Gleeson camp, Pearce and Tombstone.

another spur from the main line that will take in Gleeson camp, Pearce and Tombstone.

The officials of the new corporation include: Dr. James Douglas, president; A. C. James, first vice-president; S. P. Hutchinson, second vice-president and general manager; W. G. Choate, general superintendent; R. C. Morgan, division superintendent in New Mexico.

Work on the construction of the company's new mileage is pushed at four points—south of Douglass, near Frontreras, on the road to Nacosari; eastward from Douglass, toward El Paso; westward from El Paso, inclusive of a large amount of yard work in El Paso, and southward and eastward from Deming. The contractors on the Deming end are Orman & Crook of Denver. The senior member of the firm is the present Governor of Colorado. Work in all quarters is being rushed, with the expectation of completing the Bisbee-El Paso line and the Nacosari extension before the first of the new year. Nine thousand rails are on the ground, and 1,000,000 new ites are on the way from Texas. The present mining and commercial business of the Southeastern road is overtaxing the motive power of the company, which has been compelled to lease a number of Southern Pacific engines. Nine new locomotives have been gathered up in the East for im-

engines. Nine new locomotives have been ordered for October delivery, and a number of second-hand engines have been gathered up in the East for immediate work.

In El Paso direct connection is to be made with the El Paso and Northern Railway, the road lately taken in by the Rock Island system. From Benson a route has been outlined westward through Phoenix and Yuma to the Coast, and a corporation has been formed of men closely connected with the Rock Island directorate for the purpose of continuing the line through Arizona.

The Southern Pacific company does not intend to abandon the field in Southeastern Arizona. A party of its surveyors has just concluded the survey of a line from Cochise station southward through Gleeson, Turquoise district, Pearce and Don Luis, to Naco, where connection will be made with the new Cananea Railway, now under construction by the Greene Consolidated Copper Mining Company, for the benefit of its mines, forty miles south of the border.

PRESCOTT,

PRESCOTT.

BIG POWER PROJECT. PRESCOTT (Ariz.) July 19.—[Regular Correspondence.] En route for Pekin, China, to resume there his duties as United States Minister, the Hon. E. H. Conger made a short stop here as the guest of his brother. An in-formal reception was held in his honor at the Prescott Hotel and numerous citizens made use of the opportunity to welcome one of the heroes of the

to welcome one of the heroes of the slege of Pekin.

A piece of malicious mischief was perpetrated in the plaza a few nights ago that savored strongly of cowardly outrage. With a diamond cuttings were made in every pane of plate glass in the windows all along the line of one of the principal business blocks.

Decision has been rendered by Judges Sloan in favor of the city in the case of John Duke against the city of Prescott. Damages to the amount of \$5500 were sought by the plaintiff for the diversion into the city's water supply of the waters of Granite Creek; also an injunction restraining the city from further use of the waters.

The big pumping plant at Del Rio is

further use of the waters.

The big pumping plant at Del Rio is completed and is showing up very satisfactorily. It was inspected by the City Council and the secretary of the Southwestern Association of Underwriters, Mr. Morrow. The latter expressed himself as well pleased and has caused to be prepared complete

July Premium Piano Sale

Opens Saturday, July 20. Read Big Ads. BARTLETT MUSIC CO.,

maps of the line and distribution of water, with a view toward lowering insurance rates. Several days ago water was turned into the city mains and under test a uniform speed of 432,000 gallons per twenty-four hours-was maintained. While the big pump was not run at full, power, everything worked smoothly and satisfactorily. The pipe line is eight inches in diameter and twenty miles in length. At the pumping plant both of the town the water is run through a six-inch meter and a correct record can be obtained at all times. During the test eight feet of water was run into the reservoir, which is double the amount consumed with all the flush tanks in active operation. The water is fresh and pure. It takes about twelve hours to flow from the pump to the reservoir. By arrangement the ranchers of the Chino Valley get the water every other two days.

An artesian well was struck recently east of Holbrook. The flow of water is large and if available would be of great value to the Little Colorado Valley, but unfortunately the water is so salty that it cannot be utilized.

The Jerome Power Company reports, through E. H. Meek, who has just returned from a trip to Los Angeles in its interests, that California capitalists stand ready to furnish \$225,000 to build a plant on Oak Creek and conduct the power to Jerome and Prescott. An agreement to furnish the necessary funds has been signed in Los Angeles, and awaits only the assent of the Jerome Power Company. Senator Clark has signed an agreement to take 800 horse power for five years, and in Prescott 250 horse power has been contracted for for a shorter period. Gen. M. H. Sherman of Los Angeles is interested in the project.

The Jevene Power Company Company advertises that for the better

cott 250 horse power has been contracted for for a shorter period. Gen. M. H. Sherman of Los Angeles is interested in the project.

The Queen of Arizona Copper Company advertises that for the better development of the mineral resources of the Territory, on satisfactory terms, it will build for any promising mine a surface equipment similar to those now in use at the Clifford mines in Yavapsi county, these equipments to be built either for interests in properties or rights to mine upon lease and royalty. Members of El Yanamah Temple, No. 65, Knights of Khorassan, to the number of forty visited here from Phoenix recently and conferred the work on a class. The order has over two hundred members in this Territory. In August, 1902, in San Francisco, will be a convention of the Supreme Palace, and plans are on foot for the Arizona temple to attend in a body.

John Burkes of Jerome died here recently under conditions giving rise to a suspicion that it was a case of suicide. At the inquest testimony was given proving that he was the victim of a disease and under the morphine habit and the jury returned a verdict of death from natural causes. Burke was at one time Constable of Jerome.

Ed. Zeigler, proprietor of a hotel and store at Congress Junction, has disappeared under circumstances causing anxiety. While here two weeks ago Zeigler received a serious injury of his head, and was dazed. He was taken charge of by Sheriff's officers and given medical attention. At the end of a few days he seemed to have recovered and decided to start for home. He went out and did not return. Information has now arrived that he did not reach home and that a vigorous search has failed to discover any trace of his whereabouts.

GLOBE. MINE CHANGE,
GLOBE (Ariz.) July 20.—[Regular
Correspondence.] S. A. Parnall, for
years superintendent of the mines and
works of the Old Dominion Copper years superintendent of the mines and works of the Old Dominion Copper Mining Company at Globe, has def-initely resigned his position, and will leave Globe August I. The place has been a hard one to fill, from a variety of reasons. Possibly the main one has been that the minoral union has been been that the miners' union has been antagonistic and obstructive, and is in practical possession of the camp and its mines. The mines are of the highest worth, but have not been vigorously worked for years, possibly under an agreement with the copper-producers' association. Parnall has been receiving \$7500 a year. When he expressed a desire to leave, this amount was materially raised, but without effect. He has secured the superintendency of the Manzanel mines, owned by W. C. Greene and George Mitchell, and will take charge in September. The Manzanel mines are twenty miles south of Cananea, in Northern Sonora, and are in the same phenomenal copper belt as the great Greene mines at Cananea.

While market women followed in to pray. Martha Gilbert Dickinson, in July

BALLADE OF THE CONSTITUTION.

Go, bring the dictionary, lad,
For I would write some rhyme
About the Constitution yacht
Which sailed one on a time.
So bring the book of many words
And quick the pages turn,
The while I cull some sailor-talk,
Which I have failed to learn.

Twas in the briny ocean once,
The Constitution sailed,
Her gaff was on the weather bow.
Her boom was martingaled.
"Luff up! Luff up!" the skipper cried.
They luffed her quick and true,
And through the bulwarks and the keel
The breezes quickly blew.

They laid her head against the wind,
She split it like a cheese;
Her scupper and to gallantsail
Were floating in the breeze.
Yo, ho, my lad, we wore her off
And drove another tack.
And met the Independence and
Columbia coming back.

We doused the stabbard lights away And recfed the flying jib. And all the while the spinnaker Was rocking like a crib. Then sing yo, ho: the Constitu-tion sailed the raging main, And Independence and Colum-bia chased her all in vain. —[Josh Wink, in Baltimore American

Riffemen of a new order are doing business among the Schuetzenfesters at 'Frisco by rifling pockets instead of targets.

DR. HARRISON & CO.

DISEASES OF MEN.

Varicocele

The cause of more physical and mental debility than any other disease.

It Can Be Cured

In 5 Days. Thousands of men have Varicocele and are ignorant of the fact. They only know that something is depress-ing their mental and physical strength and racking their nervous system.

Certainty of a Cure is What You Want.

Under our treatment the patient improves from the very beginning. All pain ceases from the first application; soreness and swelling subsides. The pools of stagnant blood are removed from the dilated veins, which rapidly assume their normal size and proper tone, and strength is imparted to the organs throughout.

Chronic Inflammation of Prostate Gland The Main Cause of Men's Apparent Weakness.

By Our Ozo-Chemic Treatment.

A very large proportion of the cases of symptomatic impotency are found in men who are suffering from Chronic Prostatitis (at neck of bladder.) In almost all of these cases, the disease of the prostate has been caused by early and long continued excesses, and by excitement without natural relief. Patients suffering from this form of weakness may be young (and they are in the majority), middle aged or old. They complain of various conditions of debility, and it is not to be wondered at, when the true condition is ascertained. Young men in particular who are thus affected constitute a large army of sufferers. They complain of loss of vital essence, and especially during or after severe physical exercise. In a majority of these cases there is more or less mental worry, depression of mind and nervous exhaustion. All of these cases are amenable to treatment and can be cured by the patient following suitable advice.

Our Medical Journal will be of interest to you in locating and explaining your trouble. Illustrated with colored plates, showing diseased conditions of which we make a particular specialty, and how to prevent weakness so common among men, sent free on application. Consultation and advice free, at office or by mail. No charge for remedies. Fees arranged to suit convenience of patient.

Testerday's Report and Forecast.

U. S. WEATHER BUREAU. Los Angeles,
July E.—[Reported by George E. Franklin, Local Forecast Official.] At 6 o'clock a.m. the barometer registered B. St. at 5 p.m., 25.13. Thermometer for the corresponding hours showed 62
deg. and 34 deg. Relative humidity, 5 a.m., 94
der cent; 5 p.m., 67 per cent. Wind, 5 a.m.,
west, velocity 2 miles; 5 p.m., west, velocity 3
miles. Maximum temperature, 83 deg.; minimum, 62 deg. Barometer reduced to sea level.
Weather Count thems.—Hain is falling
this morning in the Fuget Sound country.
Showers have fallen in the Columbia Vailey,
and generally cloudy weather prevails on the
Pacific Coast. Fair, warm weather prevails in
the interior vaileys. It is cloudy in Northern
Arisona, and haif an inch of rain fell at Flagsiaff yesterday. Fair, warm weather continues
cast of the mountains. The following maximum temperatures occurred yesterday: Sait
Lake City, 85 deg.; Denver, 95 deg.; Dodge
City, 100 deg.; Omnah and Kansas City, 104
deg.; Chicago, 102 deg.; Cincinnati, 100 deg.
Foreca et a.—Local f seea. C. Loca ng les
and vicinity: Clouding during the night, becaming fair by Tuesday soon.

BAN FRANCISCO, July 22.—Weather conditions and general forecast. San Francisco data:
Maximum temperature, 55 deg.; minimum, 51
deg.; mean, 13 deg.
The pressure has risen over the northern half
of the Pacific Siope. An extensive depression
overlies Nevada, Utah and Arisona. Conditions are favorable for cloudy weather and
showers Tuesday in the vailey of the Colorado,
then the Sterza, and possibly in the footbrills. Thunderstorms are reported generally in
the southern Nevada. Rain has fallen

COME JUST TO LOOK

.-COLONIZATION OF NEW LANDS.

COMMERCE OF THE

AND THE PROPERTY OF THE PROPER

acter one of these communities of free-men stands forth as the most con-spicuous representation of this antag-onism—liberty and absolutism—New England and New France. New Eng-land was preëminetly the land of ma-terial progress. Here the prize was

Poreign-born in old slave-holding States.

Foreign-born in free States, North and West.

Total foreign-born population of the United States

States

Percentage of whole in old slave-holding States

within every man's reach; patient industry need never doubt its reward.

. We turn to New France, and all is reversed.
. New France was all head. Under king, noble and Jesuit the lank, lean body would not thrive. Even commerce wore the sword, decked itself with badges of nobility, aspired to forest seignlories and hordes of savage retainers.
. Root, stem and branch, she was the nursiling of authority.
. From head to foot the government kept its attitude of paternity.

In New France the king's officer forbade the people to quarrel in church; he bimself assigned the pews in order of preceduce; the inhabitants of Montreal were required to kill the excess of their horses above "two horses or mares and one foal." because, "being therein ignorant of their true interest," they raised too many horses and not enough cattle and sheep! The council acually decreed "that, besides white bread and light-brown bread, all bakers shall hereafter make dark-brown bread whenever the same shall be required."

New England, on the other hand,

bread whenever the same shall be required."

New England, on the other hand, had been founded on individual freedom: her people had "ained a marvelous vigor of development by the exercise of the qualities of self-help and independence, stimulated by the full employment of local self-government. Possessed of no aristocratic institutions and none of the characteristics of the Latin races, their political and economic growth has been the world's wonder.

LATIN AND TEUTONIC COLONIZA-

What Parkman has said of the Frenchman in his capacity of colonist has been generally true of all the

TWENTIETH CENTURY,
ONIZATION OF NEW LANDS.

J. Laurence Laughlin, head of the lent of political seconomy, University 150.

the Frenchman who has made a fordepartment of political economy, University
of Chicago.]

I UMAN beings, so to speak, have
different specific gravities. Some
sink quickly and stay placed,
while others rise easily and find new
positions. Nature has impianted in
certain breasts a love of wandering, a
spirit of daring and a passion for adventure and exploration. Indeed, it is,
more or less, present in all of us. To
those bold and hardy souls who scorned
the difficulties of uncrossed seas and
mountains, who were wooed by the
mystery of the unknown, we owe much
of the development of the world and
the opening up of untold riches for the
Crowds who; watched them go forth
Columbus and the Cabots, and later
the Livingstones and the Stanleys, lilustrate the natural instinct for exploration which has led to the colonization of new lands.

But back of these exploits there is
to be found some cause for the restlessness of so many adventurous
spirits, and invariably we shall find
that cause to be economic. At any
siven stage of civilization and the aris
the existing resources of certain districts begin to show an inability to
maintain an increasing number of
people at the accepted standard of living. In the hunting stage, game may
show scarcity and the nomad must
move on to newer preserves; Indian
tribes, with their printing and the protein of paint in America
on be got with difficulty when numbers press upon the food area. When

considered their blood inheritance.
UNDERLYING ECONOMIC CAUSES.
The political principles which we have found in our brief study of colonization have some further interesting relationships. As the present writer had occasion to say some years ago:

"This distrust of governmental interesting relationships. As the present writer had occasion to say some years ago:

"This distrust of governmental interesting relationships. As the present writer had occasion to say some years ago:

"This distrust of governmental interesting relationships. As the present with the same in the government as ago:

"This distrust of governmental interesting relationships." Interesting relationships. As the present with the same in the government, as affecting material rosperity, have their roots in economic causes. They are potent political forces simply because they guarantee to each individual to the property of the property. Institutions with, while protecting, take as filltle as possible to the producer will bring about the greatest material such of the property of their property in the property of their property in the property of the pro

The following table tells the whole story:

The explanation of this avoidance of certain States is certainly to be found in the existence of slavery and to the continuing effects of the régime long after its legal disappearance. The careless disregard paid to life is shown by

the fact that there were more deaths from homicide in six days in Kentucky than in eight years in Vermont. (See H. V. Redfield, "Homicide North and South," 1850.) It is an economic truism that men accumulate wealth provided the future gain is stronger than the desire for present indulgence; therefore, when life is uncertain and the expectation of enjoyins a future gain is made dubious saving will not be undertaken. A country of good soil and climate may find its growth checked by lawlessness and disorder. In the habit of settling feuds and disagreements by shooting the opponent there was created a situation which averted the tide of new settlers. The colonist feared "the despotism of the pistol and the knife" and found a home in other States.

In early and late migrations, in the study of the western continent and our own country, the essential causes of successful colonization appear unmistakably clear. They lie deep in the political and economic development of a race.

Copyright, 1901, by Victor F. Lawson.]

THE TIMES' DAILY STORY

for the message to be placed in a tanned, but graceful hand. There was a rustic of skirts, the scratch of a rustic of skirts, the scratch of a pen, then a quick step toward the door. The same hand, a prettily-curved wrist and a half-bare arm, over which fell a lace and a half-bare arm, over which fell a lace wilf-bare arm, over which fell a lace and a half-bare arm, over which fell a lace and a half-bare arm, over which fell a lace and a half-bare arm, over which fell a lace and the same hand, a prettily-curved wrist and a half-bare arm, over which fell a lace and a half-bare arm, over which fell a lace arm, over which fell a lace and the same hand, a prettily-curved wrist and a half-bare arm, over which fell a lace arm, over which fell a lace. "The dinfl-bare arm, over which fell a lace arm, over which fell a lace."

Mrs. Frank P. Flint and family, and Mrs. A. L. Danskin have gone to Shasta for the summer. Mr. Flint will leave about August 1.

Misses T. W. Howelis and Elizabeth L. Kenney of Los Angeles were entertained Saturday and Sunday by Mrs. Catherine Hagan at her charming home on Alamitos Beach.

Mrs. George E. Schmidt and Mrs. Frank T. Barnes have returned from Coronado Tent City and will be at home Fridays.

FOUR GOLD BRICKS.

Fortune in Spring-street Jeweler's Window-Operations in Northern and Southern Fields.

Four small bricks in the window of Four small pricks in the window of a Spring-street jewelry store yesterday attracted much attention, and many were the covetous glances cast in their direction. They represented a small fortune that was almost within reach

fortune that was almost within reach of every one.

The bricks were of pure, or almost pure, gold, and though the largest was less than eight inches in length, its value was in the thousands. They weighed 255, 216, 148 and 7 ounces, respectively, and as gold of their grade is worth \$17 an ounce, the lot represented \$10,642.

The total of 626 ounces of gold was taken from twenty tons of one presented.

taken from twenty tons of ore mined in the Dorleska mine in Trinity county. The property is owned by the Union Consolidated Gold Mines Company of this city. The property is now being worked on a large scale, but the intentions of the company are to begin ever more extensive operations.

GEORGETOWN DISTRICT. Just at present operations in George

Just at present operations in Georgetown district are more active than they have been in several months.

The South Sliger mine near Spanish Dry Diggings is once more counted among the active properties. Work has been resumed under the management of C. W. Keeney.

Work is being vigorously pushed forward on the mill on the old Burnhan mine. It is anticipated the company's mill will be in working order by August 1.

Miners are now at work in the Jose-phine mine, with instructions to extend the lower tunnel to tap the ledge in the former works.

AROUND FULLERTON,

FULLERTON, July 22.—[From The Times' Correspondent.] No. 13 a new well on the Union's Brea Cañon lease has produced 200 barrels of oil the pass forty-eight hours. This company now has well No. 22 down 1100 feet and No 13 is down 1630 feet in the third stratum of oil sand. Drilling will be resumed on No. 19 this week; it is now 60 feet deep with 11%-inch casing. There are good oil indications in well No. 22 The Union wells in the Fullerton field are now producing over four hundred barrels of good grade oil daily.

The Brea Cañon Company has well No. 9 down several hundred feet. It is showing up well and is easy drilling. The Menges well in Brea Cañon is a splendid producer, but the company is not working it up to its full capacity on account of the low price of oil.

It is reported here today that the Crown of the Valley (Pasadean people) will make another trial for oil in Brea Cañon, having decided to put down another well, which will be of the southwest corner of its tract, near the Menges well.

ARIZONA OIL COMPANY.

ARIZONA OIL COMPANY.

The Arizona Oil and Mineral Company has been incorporated at Presect by Joseph Dougherty, F. L. Wright, J. B. Cleveland, R. H. Burmister and John J. Hawkins. In addition there is a board of directory consisting of Hugo Richards, E. W. Wells, George H. Schuerman, H. Voge, A. J. Head and E. Rautman, J. J. Hawkins is president and J. B. Cleveland secretary and treusurer. The purpose of the company is to develop the oil fields of Lonesome Valley. Experts who have inspected the surface indications agree that both oil and gas are there, and that gas will be found at a depth under 600 feet. Something like inne thousand acres of land in selected locations has been contracted for, and the company propose to purchase its own standard rig when sufficient stock has been sold. It has been estimated that a pressure of 500 to 600 pounds to the square inch will be found, and that the greatest depth will be 1200 feet. ARIZONA OIL COMPANY.

AT THE THEATERS.

LOS ANGELES. Blanche Bates a Cigarette—shall we ever forget the brilliant Californian actress in the part of the dashing vivandiere! The wild, undisciplined, passionate, heroic child of the army, with her single-hearted ove, her fierce jealousy and hate, and ast, her noble self-sacrifice—truly she last, her noble self-sacrifice—truly she is a creation worthy of the actress, and in Cigarette Blanche Bates has a part worthy of her powers. The cast playing in "Under Two Flags" is large, and, in the main, good, but Cigarette sweeps all before her. In our vernacular, she is the whole thing. She dazzles by her brilliancy. She is strong, Whatever the emotion demanded by

beggars description. The Villa Alyussa, the moonlight playing on the waters, and the gunboats of France lying at anchor is a beautiful piece of mechanism. Of the support, Bertie Cecil is well taken by Eugene Ormonde. He is a trific stiff at times, but his expression is good in both voice and face. He only needs to let himself go a little more. Lord Rockingham, by Claude Gillingham is a delightful piece of character work. Campbell Golian is sufficiently hateful as Chateauroy. He does good work as the villain of the piece. Lady Venetia as played by Mabel Howard is an acceptable part, though not strong.

strong.

The play itself is purely melodrams The play itself is purely melodrama. The dialogue is clean-cut and interesting; the situations are finely conceived and very dramatic. The frequent change of scene is rather a blot from the artistic point of view, particularly as it leaves the house so often in short darknesses which inspire the orchestra to play over and over ad lib, ad nauseam about twenty bars of a most distressing composition. It grates on the nerves, and the gallery can hardly be blamed for rushing to its own rescue in a charge of hisses and compelling orchestral silence. Miss Bates received more floral trophies than she and Cecil and her steed between them could hold.

ORPHEUM. Old friends were warmly welcomed at the Orpheum last evening, and they proved worthy of the reception they received. he reception they received. In that class were Gilbert and Goldie.

bor entrance he may be able to get a real nice picture of an American bat-tieship in action, one of these fine days—unless he hurries up that little settlement.—[Los Angeles Times. Perhaps the Sultan of Morocco is jealous because the Sultan of Turkey was given a chance to see what fine-looking warships and Officers Uncle Sam has, and is hoping that if he puts off paying that little bill he may be honored (?) by a visit.—[Springfield Union. acter work. Unfortunately the skit is not new to the local boards, but it is quite a feature of the week's bill.

With a style that is entirely his own, and a voice that may have seen better days, or is the best of its kind, living Jones, the colored comedian, Union.

A CALIFORNIA ALPHABET.

A is for Apricots, ready in June,

B for the Blackberries following soon;

E, Eucalyptus, a monolith tall,

C is for Cherries, that melt in the mouth,

F the old Fig-tree that stands by the wall;

H for the Honey the dew-drop distills;

K for the Kumquat, as small as a dime,

L for the Loquat, the Lemon and Lime;

M for the Melons that cover the ground,

P for the Plums and the Peaches untold:

Q for the Quinces for sweet apple stew,

R for the Raisins that go with them, too;

S for the Strawberries, red all the time,

U, the Umbrella tree, and, in its shade,

V, the Vaquero that's wooing the maid;

X in a quadruplex row for their brand;

Z for the Zephyrs that blow from the sea.

All of the alphabet, standing together,

Only can tell of the half of its glory.

Land of the sun and of valley and mountain,

Land of the youth-seeker's mystical fountain-

Scarcely can hint at its wonders and weather;

BURBANK. In "A Royal Box," by Charles Coghlan, the Neill company has a play that might have been built for it, so perfectly is it adapted to the leading members of the troupe. There is less of comedy in it than in the majority of plays given by this popular company, but where a play abounds in human interest, in pathos, in short, in true life, the farcical element is not essential. "A Royal Box" tells the story of the infatuation of James Clarence, an actor, for Countess Helen Felsen, wife of the Swedish Ambassador at the court of St James. The Countess, however, has the somewhat doubtful honor to be admired by George, Prince of Wales and Regent of the Empire. The flerce jealousy of Clarence, the indifferent bonhomic of the Prince, the perfldy of Helen and the love of Celia for the famous actor are the main themes of a play rich in dramatic situations and artistic possibilities. The Clarence of James Neill is a powerful conception. It is a part that suits his earnest personality and versatile gifts. It runs the gamut of emotions, and Mr. Neill gives us never one harsh or jarring note. His art has a noble second in Edyth Chapman, whose presentation of Celia Pryse must be considered one of her banner performances. Miss Chapman enacts the part with a refinement and sweet must be considered one of her banner performances. Miss Chapman enacts the part with a refinement and sweet womanliness that are enchanting. She looks like an exquisite piece of Dresden. It is not an easy part to make convincing to an audience. It has several difficult scenes—difficult because of their simplicity. Scene 2, Act II, is one of the fine bits. In this Mr. Neili has the greater part of the work. In scene 3, Act III, Miss Chapman's work commands the highest praise. In many

one of the fine bits. In this Mr. Neili sweeps all before her. In our vernacular, she is the whole thing. She dazzles by her brilliancy. She is strong. Whatever the emotion demanded by the swift changes in an ever-varying temperament, she has it in that bright brain and soul of hers. She gives it to us, and every note rings true. Her dance is a dance of utter abandon. Call it coarse. It may be, but it is the only dance that such as Cigarette could do. So with all the scenes. Cigarette is absolutely true throughout. And in her truth, her intense humanness is her power. Certainly (as the French say) Blanche Bates has "arrived!" She has arrived in the dramatic world as an actress little short of great. She will stay. It is not chance that has brought wish. The dustatorm at Chellalla Gorge, in the midst of which Cigarette escapes up the cliffs (into the flies) on her horse at full gailop is a scene that beggars description. The Villa Alyussa, the moonlight playing on the waters, and the gunboats of France lying at anchor is a beautiful piece of mechanism. Of the support, Bertie Cecil is well taken by Eugene Ormonde. He is a triffe stiff at times, but his expression is good in both voice and face, He only needs to let himself go a little more. Lord Rockingham, by Claude Gillingham is a delightful piece of character work. Campbell Gollan is sufficient in the swell as wifficent work. Campbell Gollan is sufficient in the swell taken by Eugene Ormonde. He is a triffe stiff at times, but his expression is good in both voice and face. He only needs to let himself go a little more. Lord Rockingham, by Claude Gillingham is a delightful piece of character work. Campbell Gollan is sufficient with the same and probably foolish. Miss Hereat and stims the highest praise. In many sunds the highest praise in many the play. Julia Dean gives a clever of the work of a thankses it one of the great situations in the play. Julia Dean gives a clever of the work of a thankses it one of the great situations in the play. Julia Dean gives it only those dealers who enjoy police pro-tection are required to pay a license. What does a Councilman pay? That's a business. Or a Courthouse official who makes \$5000 or \$6000 a year? If, business is to be taxed, these fellows should help pay. But the principle is wrong; the proper way would be to raise the assessment, and add a little more to the valuation of this property, for instance, for which I pay a heavy rent to a non-resident owner." for instance, for which I pay a heavy rent to a non-resident owner."

Joseph W. Lynch, manager for Baker & Hamilton, said:

"It's all wrong and not equitable to the merchants. It would tax zome directly and then indirectly. Tax the track companies and they will increase the price of drayage; tax the banks and they will get it back at us in some shape. I understand that those of us who have paid our personal tax have already paid something for interest on bonds that have been declared illegal."

H. A. Getz said that two plans suggested themselves to his mind:

"The first is to increase the assessment, and the next to double up on the saloons, and tax tobacco and other luxuries."

RATHER LIKED IT.

of the stage manager at Drury Lane. Although a minor part, it is a somewhat trying one, as the manager is obliged to step before the footlights and address the audience. Mr. Gardiner-Jones seems very well at home in the part, as indeed he should be, for he assists Mr. Morris in playing it for the Neill company all the year round. The stage setting is excellent. The room at the Cat and Fiddle Inn is an exact representation of the Cheshire Cheese Inn in Fleet street, London, as it was when jolly Ben Jonson gathered his convivial spirits round the punch bowl. The inn is the same even today, and there are preserved there sacredly

first as and public functions of every sort. There were never more than 700 names on a subscription to any one of these funds. It's time the other hundred thousand people are taking a hand, instead of increasing the bur-den of the merchant and business man." THE LATEST FAKE.

The Sultan of Morocco has just paid \$15,000 for a coupie of cameras. If he keeps one of them focused on his har-bor entrance he may be able to get

a leading tradesman yesterday.

"Well," he said "not unless it is this labor paper, the Union Labor News. They have two lists of merchants, one called "fair" and the other "unfair." The one who advertises in their columns appears under the head "fair," the one who does not is called "unfair." It is nothing more nor less than a blackmailing scheme.

RATHER LIKED IT.

"We used to pay \$1 a month," said W. J. Getz, "and I don't know but that it was a pretty good plan. I'd be in favor of it again if they would stop the street fakers who flood the city, on every holiday or other special occasion."

AT THE CITY HALL DICKWICKIAN BACON ATTACKS TROLLEY PEOPLE.

DECLARES THEY ARE ROBBERS PREYING ON PUBLIC.

Says "St'boy!" to the City Council and Sets in Motion a Prosecution for

The City Council was formally re-quested yesterday to authorize the City Attorney to bring suit against the Los Angeles and Pasadena electric road for its alleged violation of the State law franchises.
E. E. Bacon, a lawyer living on the

East Side, is the prime mover in this effort to make the street railways be effort to make the street railways be good. He went at them hammer and tongs yesterday, boidly stating that they were robbers who legally gouged nickels out of passengers. He was a big-type top-liner on the bill in the Council, and by way of relaxation took several fails out of Councilman Allen, who essayed to bunt Mr. Bacon. The East Sider, however, not only made Mr. Allen back off into shallow water, but gained his point in having the Council pick up this hot stove from the pigeonhole of forgetfulness, where it had been thrown on various occasions.

Mr. Bacon looks like an easy old man Mr. Bacon looks like an easy old man that you might sell a gold brick to, but he does not fit the deportption. He has a smiling manner and a gentle voice that turneth away argument, but his meaning was just as strong as if he had been a megaphone. He slipped up from the rear of the Council chamber just before the morning adjournment, and mildly begged for ten minutes' time.

just before the morning adjournment, and mildly begged for ten minutes' time,

When he opened up on the transfer question the Councilimen quieted down, for this is one of the most tender subjects they have had any business with. He remarked that the people on the East Side could not go to any park in the city unless they paid double fare, and really could not reach a lumber yard or a grocery store without having the same experience. He thought this was a sort of robbery, and that he Council should stop it. He did not believe an individual could get any standing in court in an injunction suit to compel the Pasadena electric line to issue transfers to the Los Angeles Railway Company lines, and for that reason the Council should bring the suit. Here Mr. Allen tried to smooth over the trouble by suggesting that Mr. Pacon bring the matter formally before the Council by a petition or communication. Mr. Bacon replied that this had been done before, but the Council had taken no action, merely requesting some one to "request" the railway companies to issue the vanied to know if it was not a fact that Mr. Bacon merely wanted transfers to be issued, and he replied that twas not a proposition of transfers, but of making the companies obey the law. As a matter of fact, the Pasadena vansfers, alleging they were not under he same management. As a finisher se suggested that Councilman Pierce of the First Ward was the proper per-

e suggested that Councilman Pierce f the First Ward was the proper per-on to make a motion that the city ring suit against the companies for

blocks.

The Traction Company and the Sixteenth-street Santa Monica electric line are equally affected by the law, for they use the same track on Hill and Sixteenth streets. The Santa Monica cars run on the Traction track from Bush to Georgia street on Sixteenth street, over five blocks, and the Traction cars run on Hill from Eighth to Sixteenth streets, using the Santa Monica track for over five blocks.

IRRIGATION OURSTION

OFFER OF RAILWAY COMPANY.

OFFER OF RAILWAY COMPANY.

As a result of the loud and long complaints about the scancity of water for irrigation the Los Angeles Railway-Company made an effort yesterday to inject a new idea into the question by proposing in effect that the city pay a part of the cost of supplying the railway company with the water it needs in its business.

Together with other large users of city water it had a verbial agreement with a Councilman concerning a water-developing proposition, and this was brought before the Council in a communication. It was in effect that the city should pay for the development work in the river and give \$166 per month toward the expense of operating a pumping plant near the Buena Vista-street bridge, such amount to be paid four months. The allied companies would bear all other expenses of running the plant, and were to receive water at the same rate as here-tofore paid.

The Zanja Committee recommended duestion by proposing in effect that the the city pay a part of the cost of supplying the railway company with the water it needs in its business.

Together with other large users of city water it had a verbal agreement with a Councilman concerning a water-developing proposition, and this was brought before the Council in a communication. It was in effect that the city should pay for the development work in the river and give 5166 rer month toward the expense of operating a pumping plant near the Buena Vista-street bridge, such amount to be paid four months. The allied companies would bear all other expenses of running the plant, and were to receive water at the same rate as here tofore paid.

The Zanja Committee recommended the adoption of the proposition, with the exception of the clause referring to the city's bearing the cost of the development work, and it is probable the allied companies will agree to the city's exception.

Water Overseer Pessell states that the railway company contemplates

fested the park, and he has done this
to a great extent.

Bids were opened yesterday for the
boating privileges for one year, and
they were as follows:

A. H. Miller, \$2.50 per month; W.
D. Newell, \$2 per month; Joshua
Swanburg, \$84 per year.
Some of the Councilmen wanted the
bids referred to the Park Commission,
but Councilman Todd thought this
would be an insult to that commission,
and as no one wanted the commissloners insulted the bid of Swanburg
was accepted. was accepted.

BANK IMPROVEMENTS.

NOW CALLED A NUISANCE. Some days ago the German-American Bank, at the northeast corner of First and Main streets, changed the front of the building, and in so doing built a stairway that extended a short built a stairway that extended a short dstance out on the sidewalk. A howl was raised over the obstruction, and it resulted yesterday in the Council instructing the City Attorney to bring suit against the bank to compel it to abate the "nuisance."

NOISY FIRST STREET. JUSTICE MORGAN OBJECTS TO IT.

inst the two late in the neil had adnered had adnered had adnered had adnered had adnered had been also of all degrees, Justice Mortanay of hearing the confessions as well as the denials of the booze fighters and criminals of all degrees, Justice Mor-gaz has asked the Council to repave First street, or that past of it in front of the Police Court. The Judge rightly says that by law the city is compelled says that by law the city is compelled to furnish suitable rooms for the Police Court, and this it does not do. The rooms are good enough, but are not suitable on account of the fearful reverberation made by wagons rumbling up and down First street over the basalt rock street. The noise is fearful, and the sessions of court must frequently be discontinued so witnesses can be heard.

The Councilmen passed up the communication because, they say, that part of First street cannot be paved with asphaltum as it would be too slippery in rainy weather.

PENSIONS FOR FIREMEN.

The question of a pension fund for the fire department is now before the City Attorney and his opinion will de-cide whether the Council will go into court to fight the law. As read by President Powers yesterday the law takes in about all the widows, children, sistere, cousins and aunts of any fireman killed or disabled and Mr. Powers strongly objected to the Iffe insurance features of the law. He said that men in all stages of health were taken in and that they should be examined as to their condition and habits. The fire commission had already taken action toward carrying out the law and the Council was expected to provide money by taxation for the fund. Mr. Powers wanted to see the law tested in the courts and the up shot of the discussion was that the matter was referred to the City Attorney. takes in about all the widows, children

putting in a 25-horse-power electric motor, and will furnish the electricity to run it. The cost will probably amount to \$175 per month for continuous pumping from a 6-inch well to be sunk in the river bed, the water to be pumped into Zanja Madre.

BOATING PRIVILEGE.

MILLER LOEES HIS RIGHT.

The Council yesterday took away from H. H. Miller the boating privilege on Echo Park Lake and gave it to Joshua Swanburg for \$84 per year. Miller has had it for some time. It is said it was given him on the understanding that he would do away with the toughs and hoodiums that infested the park, and he has done this to a great extent.

Bids were opened yesterday for the boating privileges for one year, and they were as follows:

Adams-street Railway.

The Council yesterday granted the petition of C. A. Sumner to readvertise the sale of his proposed electric road on Adams street, from Western avenue to the western city limits. The first advertisement provided for the sale of twenty-five tickets for \$1, and the new one will have that cut out. Seventh-street Paving.

The paving of Seventh street, from Maple avenue to Figueroa street, came up again in the Council yesterday, and was continued one week. The scheme includes the burying of the telephone and electric wires in conduits, and the question was raised as to the desirability of the city's putting in the conduits, as it will be obliged to do at some time in the future. The matter went over, pending the estimates of cost to be made

AT THE COURT HOUSE

FURREY'S LIBEL SUIT NOW GOES TO TRIAL.

Day of Continual Questioning is not Enough to Select a Jury, So Many Well-known Men are Joined in the

Maj. W. C. Furrey's \$50,000 damage suit against the Executive Committee of the Committee of One Hund.ed and Fifty, otherwise known as the Com mittee of Safety, went to trial yes-terday before Judge Oster of San Rer-nardino, sitting here in Department Two of the Superior Court. The at-torneys for the plaintiff are Bernard Potter, Esq., Henry C. Carter, Esq., and Messrs. Works & Lee, while the interests of the far-famed committee are in the hands of Will A. Harris, Esq., Messrs. Goodrich & McCutcheon

and Messrs. Flint & Barker.

The personnel of the committee, as made defendant in the damage suit, made defendant in the damage suit, comprises Abe Haas, Kaspare Cohn, J. S. Slauson, J. J. Fay, Jr., J. O. Koepfil, J. R. Newberry, Charles Silent, Dr. J. H. Davisson, D. M. McGarry, F. O. Wyman, R. W. Burnham, L. W. Blinn. Frank P. Flint, Frank A. Gibson and

priating public money, he was not as exacting on plumbing as on paints and Insurance."

In his complaint Maj. Furrey calls attention to the fact that he has lived in Los Angeles for almost thirty years, and until recently did a wholesale hardware business here since 1878. He

and until recently did a wholesaie hardware business here since 1878. He alleges that his reputation has always been excellent for honesty and integrity. He has a wife, one son and a daughter. His circle of friends is very large. That is why the publication of the committee's report, he says, hurthim \$50,000 worth.

The committee, on the other hand, maintains that any body of private citizens has a right to investigate public matters, and a duty to perform in this respect. And if anything putrifying is found in Denmark, it should be made public, let the odium fall where it may. It is also contended by the committee that its report in regard to Stein and Maj. Furrey was but an except, as it were, from a grand jury's report.

cerpt, as it were, from a grand jury's report.

The day was spent yesterday in examining jurors for cause, and the work was not concluded. The work of selecting the jury will conclude some time today. Owing to the fact that so many prominent citizens are connected with the suit, getting a jury is no easy task.

SUPREME COURT.

STORK DENIED NEW TRIAL. Eugene B. Stork, who was convicted of forgery in July, 1899, and sentenced to seven years in the penitentiary at San Quentin, must pay the penalty of his crime. The Supreme Court has handed down an opinion, wherein the judgment of the lower court is affirmed. The writing alleged to have been forged was a contract for the exchange of certain land between John A. McCarty, party of the first part, and Edna E. Nave and her husband, A. G.

Nave, parties of the second part.
"There was ample evidence," says
the appeal court, "to warrant the jury
in finding that Stork committed for-BIG DAMAGES WANTED AGAINST
COMMITTEE OF FIFTEEN.

In mannagers."

The Naves owned property near Florence, while McCarty owned 160 acres of land in Missouri. Stork drummed up a deal to exchange and drummed up a

got the Naves to deposit with him in escrow a deed of conveyance, upon escrow a deed of conveyance, upon the understanding that they were to have all the time they wanted to ex- moved 800 East Fourth. Tel. South II.

amine the Missouri property. The deed was dated February 9, 1898.

But the Missouri land turned out to be worthless, and Nave demanded a return of the escrow deed. Stork refused, saying that the transaction was closed and that the title had passed out of the Naves. A civil suit was promptly instituted, whereupon Stork produced the forged instrument.

For about three years has Stork lain in the County Jail, and every day may be seen his faithful old wife, plodding her weary way up the cold stone steps with some delicacy of food for her unfortunate spouse. At times for her unfortunate spouse. At times he has served as "trusty" book-keeper of the jail. IMPORTANT TO BUILDERS.

IMPORTANT TO BUILDERS.

An important opinion was handed down by the Supreme Court yesterday in the case of William H. Gibbs vs. Mary A. Tally and Thomas L. Tally, her husband, wherein the lower court's judgment in favor of plaintiff is reversed. The action is one for damages against Mrs. Tally, by the assignee of certain persons who had performed labor or furnished materials, in the construction of a building, for falling to cause a bond to be filed with the building contract, as required by section 1203 of the Code of Civil Procedure, a failure to comply with which renders "the owner and contractor jointly and severally liable in damages to any and all material men, laborers and sub-contractors entitled to liens upon the property affected by said contract."

In this case a bond was filed, and

In this case a bond was filed, and In this case a bond was filed, and apparently in good faith designed to comply with the statute, but it was found defective because it was not "by its terms made to inure to the benefit of any and all persons who perform labor or furnish materials to the contractor or any person acting for him by his authority." "in an amount equal to at least 25 per cent, of the contract price."

ricas' "In this case," says Justice Temple, who writes the opinion, "there was a valid contract, which was performed on both sides. Mrs. Tally has paid out to the lienors the entire contract price. They have received all to which they are entitled. Having got from Mrs. Tally the entire contract price, they are endeavoring in this suit to compel her to pay 25 per cent. more because of a mistake made by her or her attorneys in writing the bond. It cannot be done, and the Legislature has not the power to require it of her."

COURTHOUSE NOTES. BREVITIES MISCELLANEOUS

NEW LAWYER. Elvalde Burns, Esq., who holds a certificate from the Supreme Court of Texas, was admitted on motion of Johnstone Jones, Esq., yesterday to practice in the Superior courts of California.

FRENCH ESTATE. The will of the late Francis M. French, who bequeaths his \$50,000 estate to the widow, Mrs. Louise C. French, was filed for probate yesterday. The other heirs are two minor daughters, Hazel and Della, aged 17 and 15 respectively. Mrs. French is named executrix without bonds. The will bears date of July 16,

ARTIST'S ESTATE. Public Administrator Kellogg has asked for letters of administration in the \$1500 estate of Col. Albert Jenks, who sudden'y dropped dead in East Los Angeles on Sunday morning.

POWERS ON TRIAL. Philip Fowers of Norwalk, a young cripple, is on trial in the criminal court for robbing Jeseph Sherman of \$100 in a Norwalk saloon on May 25. Sherman was drunk at the time and was sleeping off his jag in Powers's room. But a short time before the robbery, Powers had been acquitted of stealing a Jersey calf in Downey. His present trial will conclude today.

NEGLIGENT GEORGE. Judge Trask divorced Marie V. Cunningham from George J. Cunningham yesterday, on the ground of non-support.

HOWE CRAZY. James Howe was adjudged insane yesterday. The doctors who examined him were Dr. J. H. Davisson and Dr. W. G. Cochran. Howe thinks the government owes him \$550,000. According to his fragmentary remarks, he was sentenced to death by Abraham Lincoln.

FREEMAN DIVORCE. Charles Freeman was divorced from Jessie Freeman by Judge Oster yesterday, on the ground of desertion.

UNHAPPY COUPLES. Suits for di-VOICE WERE COUPLES. Suits for di-vorce were begun yesterday by Michael H. Thornton vs. Edna Irene Thornton, John Leudeman vs. Julia A. Leude-man and Albert Taylor vs. Maggie Taylor.

The Lady Undertaker.

CWEET SONGSTERS IN SANTA ANA VALLEY.

MEMBERS OF THE THRUSH FAMILY. MORE NUMEROUS.

Charming Warblers and Good Friends chards Develop - Wedded in the

SANTA ANA, July 22.—[From The Times' Resident Correspondent.] Residents of this valley have noticed recently that song birds are becoming more numerous, particularly the robin and others of the thrush family, which have in years past been so plentiful in the East. Ten years ago these birds were seldom seen in this section. It is believed that the development of the country by the horticulturist has done much toward bringing the orchard wrote and blackbird in increased numers. These hirds are all the friends. bers. These birds are all the friends of the husbandmen, as they destroy many insects, eggs, worms and larvae. The additional foliage, by reason of the

EARLY MORNING WEDDING.

Miss Maude E. Nickey, daughter of P. P. Nickey, chairman of the Board of Supervisors, was married this morning at \$:30 o'clock to Charles Ross Bowler, son of Col. J. R. Bowler of Hotel Rossmors. The ceremony was performed at the residence of the bride's father on North Main street by Rev. McClain W. Davis of the First Presbyterian Church, and was witnessed by a few of the most intimate friends of the contracting parties. Immediately after the ceremony Mr. and Mrs. Bowler were driven to Orange.

ladies will receive.

Prof. Robert Fletcher, Ph.D., a director of the Thayer School of Civil
Engineering at Hanover, N. H., is the
guest of friends here.

The American Foresters and their The electric railway, also operated by the United company, is being rebuilt up. State street, from the boulevard to Arlington. This work goes on as rapidly as a large force of men can push it. A 500-foot strip of track is torn up each day and relaid, so that traffic is not materially interferred with. As soon as the work is completed the schedule will be changed and a better system adopted. There have been many difficulties to overcome, but the work has not lagged. Within the month the standard rails will have been inlid, and the pavement resurfaced flush with the top of the rails.

AN ANCIENT PADRE. The American Foresters and their friends enjoyed a picnic excursion to Lakeside yesterday. Charles Simpton, son of Walter Simpton of National City, died this morning, aged 20. Coronado is the coolest place.

AN ANCIENT PADRE.

The Old Mission is enjoying a visit
from Ladre José Godiol, one of the
patriarchs who knew it a half century

patriarchs who knew it a half century ago, and for two score years was one of the chief directors of its fortunes. Now old and fast approaching four score years, he has returned for a few days to visit the scenes of his early labors with the Indians, and recall from modern Santa Barbara, the village of crude huts, which were the homes of his Indian flock. "Father Joseph," as he was familiarly known by the English people, is a typical Spanish padre of the Franciscan order, type of priest which has pretty thoroughly given place to Germans throughout the Coast. At his advanced age he is jovial and entertaining, though 'his health appears somewhat oroken.

pears somewhat oroken.

During his stay at the mission, Father Joseph laid out and opened what afterward became an extension of Laguna street. Father Joseph speaks English but imperfectly, but is fond of telling of his former life here, and seems abundantly satisfied with the progress of the times. He is now on a tour of the missions of Southern California, all of which he has been familiar with for a half century. From here he will go to Ventura and Los Angeles.

GRAND JUDY OPPERED.

GRAND JURY ORDERED. Judge Day of the Superior Court to-

are considering the wisdom of organ-izing to fight the plan and may start a counter petition. The attention of Y. Ohki, who is in charge of the Japanese Consulate, has been called to the matter. Referring to the San Francisco resolutions, he said: giving employment to many new men. There is little doubt that the Salt Lake road will be built through the city, and that the Southern Pacific will soon run its main line between Colton and Redlands through here also. When all or part of these things happen, the old town will be one of the snappiest on the map.

person. He therefore placed the second charge against him. In the Police Court the cases were set for Wednesday at 2 p.m.

Thompson was the official representative of Ventura county at the Chicago World's Fair in 1893, and has held other positions of responsibility and trust in that county and elsewhere throughout this part of the State. Several years ago his mind falled and he was placed under treatment. How long he has been in the city is not known to the officers. It is not probable that he will be prosecuted when all the facts in the case and his mental condition, are made known to the court.

lands through here also. When all or part of these things happen, the old town will be one of the snappiest on the map.

Coronado is the coolest place.

THE TIMES-MIRROR COMPANY. ness property, which for years has received scant attention, is now in active demand, and scores of more or less pretentious cottages are being built. It is generally believed that options have been secured by outside capitlalists on large blocks of business property on Third street. If these deals go through, one of the most prominent business sections of the city will practically be rebuilt and modernized.

Contracts have been let for the construction of a 19000 business block on E street south of Third, in which vicinity, it is safe to predict, the Southern Pacific will make extensive improvements in the near future.

The Santa Fe yards and shops are being enlarged on an extensive scale,

PERROVILLE-BY-THE SLOO.

PERROVILLE, July 21.—[By Snow-shoe Runner.] The sick cow of Mrs.
Johnson's has nearly recovered her

Johnson's has nearly recovered her milk.

"Prof." Androwski, who kept bar for the Ohio Den of Iniquity, was suspended a couple of days ago. The Vigilance Committee are rapidly getting the hang of things.

The Blackface Methodist Society gave a chicken dinner Friday night, which was heavily attended. Almost every hencoop in town suffered in consequence, and several pet fowls were recognized, but no arrests have been made, as the society are doing a worthy thing in trying to relieve the burdey of debt which has been hanging over the church for some time.

The Conversasione Club met with the Pettigrew girls on Thursday night. Only two members were present—Andy Simons and Joel Hayricks. The meeting was held in a couple of hammocks on the north side of Pettigrew's house, where that big creeping vine costs a deep mantle over the verands. It was votted the pleasantest of the season. Honey and home-made kisses were served at midnight.

Honey and home-made asserved at midnight.

While attending the social given by the Anti-Probibitionists in Harmony Hall last night, Mr. Eben Lamport, one of our highly-esteemed citizens, had the misfortune to lose an eye. It rolled under a bookcase and couldn't be found.

Suits were filed in the Superior Court this afternoon by Mr. and Mrs. William F. Hartwig against the San Diego Electric Street Railway for \$75, 000 damages for an accident which be-fell them while they were driving down Fifth street last fall.

hall last night, are good and condenses, had the misfortune to lose an eye. It rolled under a bookcase and couldn't be found.

The Seythe Snath & Pig Poke factory will hold its annual picnic for its employes in Sick-a-more Grove next Tuesday. Free beer, free barbecue and a free fight are among the many attractions promised.

Bring your pocketbook if you attend the branch of the Dowleite Church next Sunday. A collection is to be taken for Brother Giddinga, who had the misfortune to lose a leg in Barman's saussig mill a few days ago, and who says a new one can be bought for \$18.98. It is a most worthy cause.

Biel Holt, who peddies milk out on the Slootown road, was shot last night. Biel is badly addicted to hitting the can with the white suds inside, hence the reason why be had to lay off and let Staey Handleman take his place last night.

Buy your camping outfits of Haichet Harry, the Hardware Man. He handles everything, including the finest brands of anake-bite cure. Also baked beans and ammunition.

Peter Flickers is helping Anthony Comstock, who is the son-in-law of Mrs. Henry Thackery, who lives out on the road to North Slootown Heights, with his haying, which will be a very large crop, so your correspondent has just learned, and will also stay and help with the other chores for a few weeks or so.

It was 122 in the shade over at Aleck Starkweather's at 2 o'clock yesterday morning. He came home with considerable of a jag on, and his wife gave him the granite stare and the hot end of a stove poker, which she has learned to keep hot for Aleck of just such occasions. Better 'jine' the S. of T., Al.

very little to show as the result of its fourteen years of .../ government.

TAX FEATURE.

routeer years of .../ government.

TAX FEATURE.

Referring to taxes, it is said South Pasadena would sustain an increase by annexation. South Pasadena's rate last year was 70 cents on every \$100 of assessed valuation, as compared with \$1 in Pasadena. Of Pasadena's rate, is cents was to pay outstanding bonds, which South Pasadena would not be called on to pay, and, with this elimination, South Pasadena's increased rate would be, 20 per cent. more than at present, but taking into account a lower assessed valuation in Pasadenans would pay only \$1/2 per cent. more than at present. Attention is called, however, to the fact that this simply is based on a general average, and that Pasadena also expects to enter on an era of progress, which generally means the spending of more money and the increase of taxes.

South Pasadena would not become liable for any portion of the bonded indebtedness of Pasadena, though it would become, in case of annexation, joint owner and beneficiary of the properties acquired by means of that indebtedness, viz: the public library, sewer farm and fire department. The two main purposes Pasadena has in view in desiring municipal expansion are stated to be the simplification of the problem of municipal ownership of the city water supply, and the inclusion within the city limits, prior to the vote on further issues of bonds, of such territory as may be expected ultimately to become part of the city, and consequently to benefit by improvements thus secured.

WATER SITUATION.

Upon the subject of water clear and definite information has not been observed.

of Pasadena.

In closing, the report says the method of annexation would be through the disincorporation of South Pasadena, a movement shigh would have to be started by a petition sizned by one-half the total number of qualified voters of that city as shown at the last municipal election. An election then would be called, at which two-thirds of the voters would carry the day for disincorporation. Then a petition to annex would be presented to the City Council of Pasadena, with a description of the boundary lines of the portion proposed to be annexed, and an election would be called, both in Pasadena and South Pasadena, a majority in each being necessary to effect the union.

This report, as stated before, is now "up to" the City Councils of both cities for action.

MRS. GILMAN'S CONDITION.

MRS. G. GILMAN'S CONDITION.

MRS. E. T. Gilman, who was injured severely in a bicycle accident two weeks ago, is making rapid progress toward recovery, being able to leave her bed for a short time each day. That her injuries didnot prove fatal is considered remarkable, because of her advanced age: as it is, she has lost the sight of her left eye, and will suffer much inconvenience from the breaking of her left wrist. She is a the home of her daughter, Mrs. J. H. Murphy, North Fair Oaks avenue.

OFF TO LONG BEACH.

OFF TO LONG BEACH.
The Pasadena High School Glee Clu The Pasadena High School Glee Club will give a concert either Monday or Tuesday next week in the Coughran Hall at Long Beach. The usual weekly play given in this hall will be omitted. The club scored a success at their concert in Pasadena, and have made a name for themselves. The members are: First tenor, Jepson (Instructor, Coffin, Sweesy, Severy: second tenor, White. T. Rice. Stork (secretary;) first bass, E. Rice (pregident.) Kellogg (manager.) Chapin; second bass, Clapp, Reynolds, Carter, Chase. Miss Fanne Furman, accompanist.

NEW FIRE ENGINEER.

E. J. Fouke was chosen by the

NEW FIRE ENGINEER.

E. J. Fouke was chosen by the Police Commission today to act as engineer of the fire department to fill the vacancy caused by the promotion of A. M. Clifford to the position of Chief. Mr. Fouke has served several years in the department, and of late has acted as hoseman with the chemical apparatus. He has had some experience as an engineer, and, in the opinion of the commissioners, is the only man available for the place. He will assume his new duties August I, and his salary will be \$70 per month,

an increase of \$10 over his present salary.

The commissioners, acting as a park board, took up at today's meeting the matter of trimming the shade trees which line the sidewalks on the streets of the city, and to Mayor Weight was given authority to proceed with the work. Mr. Weight will choose two or three experienced men to trim the trees in a uniform and systematic manner, and he will have direct supervision of the operation, which will continue until the much-needed improvement shall have been made on every-street in the city.

DEATH'S HARVEST.

SANTA MONICA BREVITIES.

The case against Charles Temple, charged with battery by his wife, was dismissed today; the defendant paying the costs. The wife wouldn't prosecute. Mrs. Eybil Eason died last night at the home of her sister, Mrs. L. B. Osborn, at Ocean Park, the cause being dropsy. Deceased was 58 years of age, and a native of Ohio. Funeral services will be held at Guidinger's undertaking parlors tomorrow.

Mrs. M. C. Spiers and family of Los Angeles have taken a cottage on South Second street for the season.

Today's arrivals at Hotel Arcadia include S. S. Fessenden and wife, R. A. Rowan, Mr. and Mrs. William Fessenden, P. D. McConnell, Charses Roy, Clarence Galbraith, Gen. Sherman, all of Los Angeles; Miss Rosenbauer, Sausalito, Cal.; Dr. Alexander J. McIvor-Tyndall, London, Eng.: J. A. McCleary, Chicago; Mr. and Mrs. Herbert Humilton, Riverside; Miss Marie Jacobf, Pasadena; Miss Ethel Glasgow, Pasadena.

Miss Josephine Sherwin of Den er is SANTA MONICA BREVITIES.

liton, Riverside; Miss Marie Jacobi, Pasadena; Miss Ethel Glasgow, Pasadena.

Miss Josephine Sherwin of Denvor is visiting her sister, Mrs. J. F. Keating, at No. 50 Hill street.

Miss Adelaide J. Coit and family of Los Angeles are among recent arrivals, and are quartered at No. 15 Coean Front.

Mrs. F. Tweed and family of Phoenix, Ariz., have rented a cottage on Second street for the summer.

E. M. Guthrie of Los Angeles has recently taken the cottage at No. 23 hilm ney street for the season.

Mrs. D. J. Kennelly and family have moved to the Doria for the reason, and A. Hamburger is now occupying the Kennelly residence.

Mrs. E. W. Dumbell of Los Angeles is spending a week with Mrs. L. E. Hubbell,

Jack Mooser has returned from New Mexico, and will spend the cummer with his parents here.

Prof. Frank Carter has just returned from England, and will remain during the summer with his folks on North Second street.

IN LONG BEACH.

CHAUTAUOUA SPEAKER TELLS OF

ous Fishing Tackle from the Natives of Micronesia-Plans for Electrical

LONG BEACH, July 22.—[From The Times' Correspondent.] The hand of castigation and its influences over the great round earth were discussed before a large but interested audience which turned out at an early hour at the Chautauqua Assembly today."
Miss Will Allen Dromgoole, who spoke on "The Hand That Spanks the Baby," received a cordial greeting. She said some happy things about Southern California and told in a reminiscent vein of a cabin back in Tennessee in a pastoral setting and with its latchstring out for Californians.
"I did not announce my subject as "The New Woman," she said, "because I feared that some might say of it as the Irishman did—"faith, and it's only the ould girl in short petticoats."

tarving child of the once rich, sounded o'clock loce.

"Earl own in at his divided the reveille of the battle for bread.
"Woman no longer marries merely as a means to a livelihood, to dodge drudgery, to keep from being an old maid or that most common of all reasons, just to be married. She marries, if at all, a helpmeet, just as God intended she should—someone in whose keeping she can trust serenely not only her life, but that which is dearer, her honor. The very hap pleat woman in the world is she who has a good man's love to rest upon. But fate does not fa'l cn all slike. To come is given but one of a very old bachelor," she said, "We agre very fend of meeting there because he allowed us to hitch of the said of a young, ignorant, friendl'ss girl her because he allowed us to hitch of a young, ignorant, friendl'ss girl equip them for the fight. Give them truth and an inheritance of honor, affection and the memory of a mother's prayers, firmness and the example of a father's integrity. Fit them for the great choir invisible will be again in deeds made better by their presence. Teach them God and home and honor. Teil them that the world is a snare and the very wisest fall into the pit.
"No great cause ever succeeded without man's help. No cause at whose door a good man knocks in vain ought to succeed. I have all faith in the justice of a good man and faive all faith in the honor of a clean man. "Teach they young womanhood of America that men and women are governed from within and children only from without. So long as there is a broken doil to mend, a bruise to bind, a hobby horse here and a football yonder, to long will woman be woman and God's best gift to man, and just so long will read the world."

Prof. J. H. Hoose delivered a lecture this morning by Mrs. Grace E. Duriton was devoted chiefly to the roasting of a houlder of mutton.

The special features of Tuesday's exercises will be in charge of the Young woman on "The Business Girl's Luncheon." At 2 p.m. Miss Cora L. Tatham, general secretary of the Los ang

a.m. and noon on "The Business Girl's
Luncheon." At 3 p.m. Miss Cora L.
Tatham, general secretary of the Los
Angeles association, will speak on "A.
Brief Fresentation of Association
Work." That will be followed by a
physical-culture drill led by Miss Lulu
Botsford, association director in physical training. Mrs. Lou V. Chapin will
speak on "The Relation of Current
History to Culture," and there will be
an address by Rev. Dr. Hugh K.
Walker of Los Angeles.

w. R. Burnam of Norwich, Ct., are staying at the Riviera.

The Long Beach Board of Trade, through P. E. Hatch, its president, has practically completed arrangements for the production of the electrical fountain at this seaside resort. It is expected that the fountain will be set up on the bluff near the foot of Pine avenue within a few days. It is purposed to give two entertainments nightly. When in operation, for which the services of seven people are required, the fountain sends up a sheet of water sixty feet high. Within is a glass-protected space twenty-five feet in diameter in which spectacular performances are given under variegated electric-light effects.

Robert E. Masters has received from

Robert E. Masters has received from Mrs. Mary Minor of Los Angeles a curious fishhook for trolling, such as is used by the natives of Micronesia. The hook was presented to Mrs. Minor by a missionary. It is made from some shell resembling the abalone and attached to it is the imitation fish which is made of the same shell material. One side is dark and would therefore be pursued by the yellowtail and some other kinds of fish, while on the other side it is of a light shade such as would attract the bonita and barracuda.

The case of H. M. Johnson, the druggist accused of having sold liquor in

violation of the prohibition ordinance, came up for trial before the City Re-corder this morning. Nearly all of the day was consumed in arguing a motion for a change of venue and in getting a jury.

SANTA CATALINA ISLAND.

SANTA CATALINA ISLAND.
WHERE FISHY METEORS SHOOT.
AVALON, July 22.—(From The Times' Resident Correspondent.) Parties who were camping at the Isthmus last week bring glowing accounts of the wonderful phosphorescent display visible there in the evenings. As the bay is full of fish the interest is greatly enhanced by seeing them dart hither and thither through the water like a fall of meteors in the sky. It is becoming the popular thing for small parties to go up and remain over night to witness the phenomenon.
The programme of the band concert last evening was the beat yet rendered

POMONA. OLIVE-OIL MILL MOVES.

OLIVE-OIL MILL MOVES.
POMONA, July 22.—(From The Times' Resident Correspondent.] The machinery and apparatus in the olive-oil mill of D. H. McEwen near North Pomona has been purchased by the Ploomington Land Company, and will soon be moved to Bloomington, where the company is building a large mill and will manufacture olive oil on an extensive scale. The McEwen factory will be closed. McEwen's lumber interests in the northern part of the State require his attention, and increasing business compels him to be absent most of the time.

POMONA BREVITIES.

KNIFE WIELDER CAUGHT.

Slashed Another Mexican—Says It
Was in Self-defense.

Serapio Escobedo, a Mexican, was
arrested last night by the detectives
on a charge of assault with a deadly
weapon. He slashed M. Nieto across
the breast with a large knife at a
dance on Buena Vista street at 2
o'clock Sunday morning. Escobedo
does not deny it, but declares that he
acted in self-defense. From what he
arresting officers have been able to
learn it appears that he will be able
to prove that he did not use his weapon
until he was compelled to.

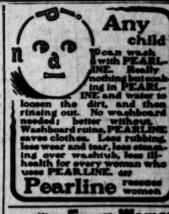

The two men had trouble early in
the night, and had almost come to
blows, but were separated. Later the
row was renewed. Nieto having again
approached his enemy. Again they
were separated early Sunday mornning they began quarreling a third
time, and Nieto is said to have struck
Escobedo several times. It was then
that the latter used his knife, cutting
a gash eight inches long in Nieto's
breast. Escobedo made no effort to
leave the city and has been at his
work since the trouble.

Benjamin Wise, who was arrested Priday because of the manner in which he treated his wife, it having been mecessary to send the police to his residence several times to protect the woman, was fined 330 in the Police Court yesterday with the alternative of working for fifteen days on the chain gang. Saturday night he became ill, and it was thought he would die, but he quickly recovered. Joyful Unto the Lord.

Joyful Unto the Lord.

A singular complaint has come to the police from people living near the corner of Sixth and Crocker streets. The Free Methodists are holding revival meetings there, and the neighbors say the worshipers protract their sessions of enthusiasm so late and so hilariously that sleep is impossible for the heathen or anybody else, wherefore they petition that the law step in and shut off the shouting. But when Gabriel blows his born some kicker will complain of the noise.

Tish are Scarce.

"Take back your golden fiddles and give us the open sea," is the way the ungrateful sailors address the angels in Rudyard Kipling's Modern Apocalypse." "Keep your golden waters and give us the open sea," is what the baracuda and yellowtail seem to be saying along the coast. The cherry-colored waters of the coast from Point Concepcion to San Diego, due to the phosphorescent condition of the ocean, have driven the fish far out to sea, and as a result the products of fishermen are scarce. Local marketmen have to import their stocks from San Francisco.

New Steamer Delayed.

The new steamer for the Banning Company, to ply between San Pedro and Comalina, was intended to help out

in carrying the rush of Epworth League tourists to the island, this week. The strike at San Francisco, however, delayed her completion, and she will probably not arrive until Saturday, when she will be of no special use. The rush will be over, and the vessels now in service, making three trips a day, will be amply sufficient to handle the people. At the annual meeting of the company at the close of September, extensive improvements to the island resort will be considered.

BREVITIES.

Send donations of cast-off clothing, furniture or food supplies to the Good Samaritan department of the Bethlehem Institutional Church, Vignes and Ducommun street, or telephone John 26, and wagon will call. Office hours during summer months 11 to 12 daily. Fo-time or arrival and departure of Santa Fé trains see "Time Card" in today's Times.

Busy BEES DO HOTFOOT.

Business End Applied to Over Thirty People in Fullerton.

FULLERTON, July 22--[From The Times' Resident Correspondent.] The hot ends of a lot of

"hive," which happens to be a

When the stones hit the pipe there was "something doing" in The bees poured out by the hunface of one of the youngsters. He couldn't see to throw any more stones yesterday.

going that way was touched up, to say the least. There were merry chases and funny fights and of wings died away more than thirty unlucky mortals were rubbing welts and applying lotions to take was an exciting time.

D ELIEVED PENNILESS BUT LEFT MONEY.

BOHM, WHO COMMITTED SUICIDE, HAD A BANK ACCOUNT.

Buried as a Pauper by the County, and Now Found to Have Been Worth Nearly Two Thousand Dollars-Pe-

By merest accident it has been dis-covered that Heinrich Bohm, who committed suicide in Los Angeles more than three years ago, and who was supposed to have been pinniless, left a small fortune, sufficient to have kept him comfortably for a long time with-

supposed to have been panniless, left a small fortune, sufficient to have kept him comfortably for a long time without working.

The annual sale of the property which has accumulated at the Police Station, consisting of odds and ends taken from prisoners, found on the streets, seized in raids, and secured by various means, has been advertised for tomorrow at 10 a.m. Several days ago the Chief of Police had an inventory of this property made, and upon examining it he found in the list mention of one large trunk. He ordered this trunk opened and found it filled with clothing, papers and what not. It had been the property of Heinrich Bohm, and among other things was found a bank book of the German Savings and Loan Society of San Francisco. The Chief sent an inquiry to the detective department at San Francisco and yesterday he learned that there is on deposit with the German Savings and Loan Society iii 1719.92, subject to the check of Heinrich Bohm. The accumulated interest makes the amount to Bohm's credit more than \$2000.

By examining the police records the Chief found that Bohm committed sujcide here. The records show that Bohm who was known also as Bowman, occupied a room at No. 208½ East Fifth street. He was a tailor and had been ill for a long time. On the night of March 10, 1898, he took a small dose of arsenic with suicidal Intent, but not a sufficient quantity to kill ilm. He remained in his room very ill for two days, and was on March 12 removed to the Receiving Hospital, where he told the Police Surgeon the facts. Had he been in good health when he took the poison he would have recovered, but his system had been so weakened by disease that he failed to rally from the effects of the dose. On the morning of March 13, 1898, he was removed to the County Hospital, and died the following night. The remains were buried at the expense of the county. Bohm had not mentioned the fact that he had money in bank in San Francisco, nor had he given the effects which deeper the county. Bohm had not mentioned the fact t

relations.

Among his effects in the trunk are papers which show that he had relatives in Germany. The case has therefore been reported to the German Vice. Consul, and he, together with the Public Administrator, will see to it that the heirs receive the money he had to his credit.

MARRIAGE LICENSES.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

William Johnson, aged 39, a native of Sweden, and Annie Anderson, 38, a native of Sweden; both residents of Los Angeles.

Cari A. Schubert, aged 61, a native of Germany, and Elise Werber, aged 51, a native of Germany; both residents of Los Angeles.

Martin Meklausshiitz, aged 22, a native of Austria, and Josephine Lorenzi, aged 18, a native of Mexico; both residents of Los Angeles.

Edwin J. Dactweller, aged 20, a native of Kansas, and Adger B. Burris, aged 24, a native of Missouri; both residents of Compton.
